LITERACY-ENGLISH We read chapter four of 'Nate the Great' with our teacher and transferred the knowledge to literacy companion worksheets focused on critical thinking and vocabulary. We revised the homonyms with the spelling worksheets in the spelling companion and ended the week with independent writing.

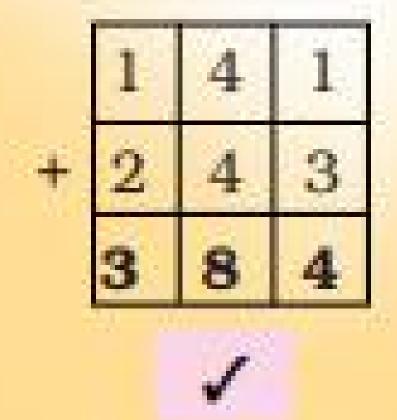

NUMERACY We have started out new lesson 'Fun With Give and Take', which is based on Addition and Subtraction. We are enhancing our calculation skill by using the inverse operation.

Check Rashi's subtraction using addition. Give her a 🖌 for every right answer.

#### Can You Help Nabeela?

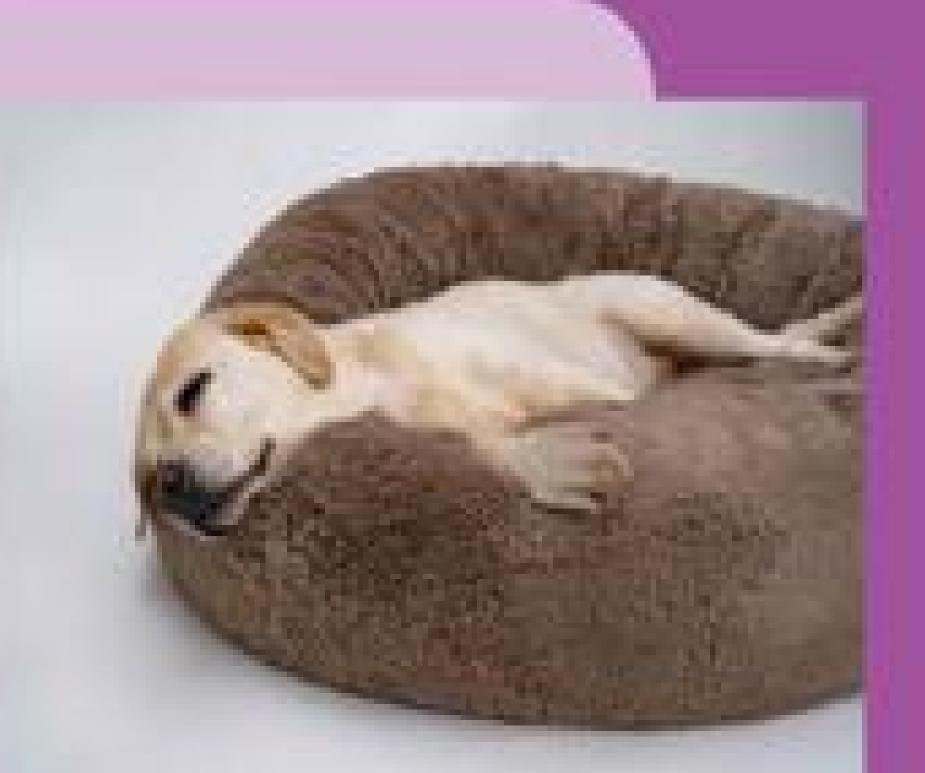

Inverse operations have numerous real-world applications. For example, understanding addition and subtraction as inverse operations is essential for handling money, calculating change, and budgeting. These skills are not only valuable in school but also in various aspects of everyday life.

# SCIENCE

Providing fresh water and healthy food

Providing shelter and a comfortable resting area

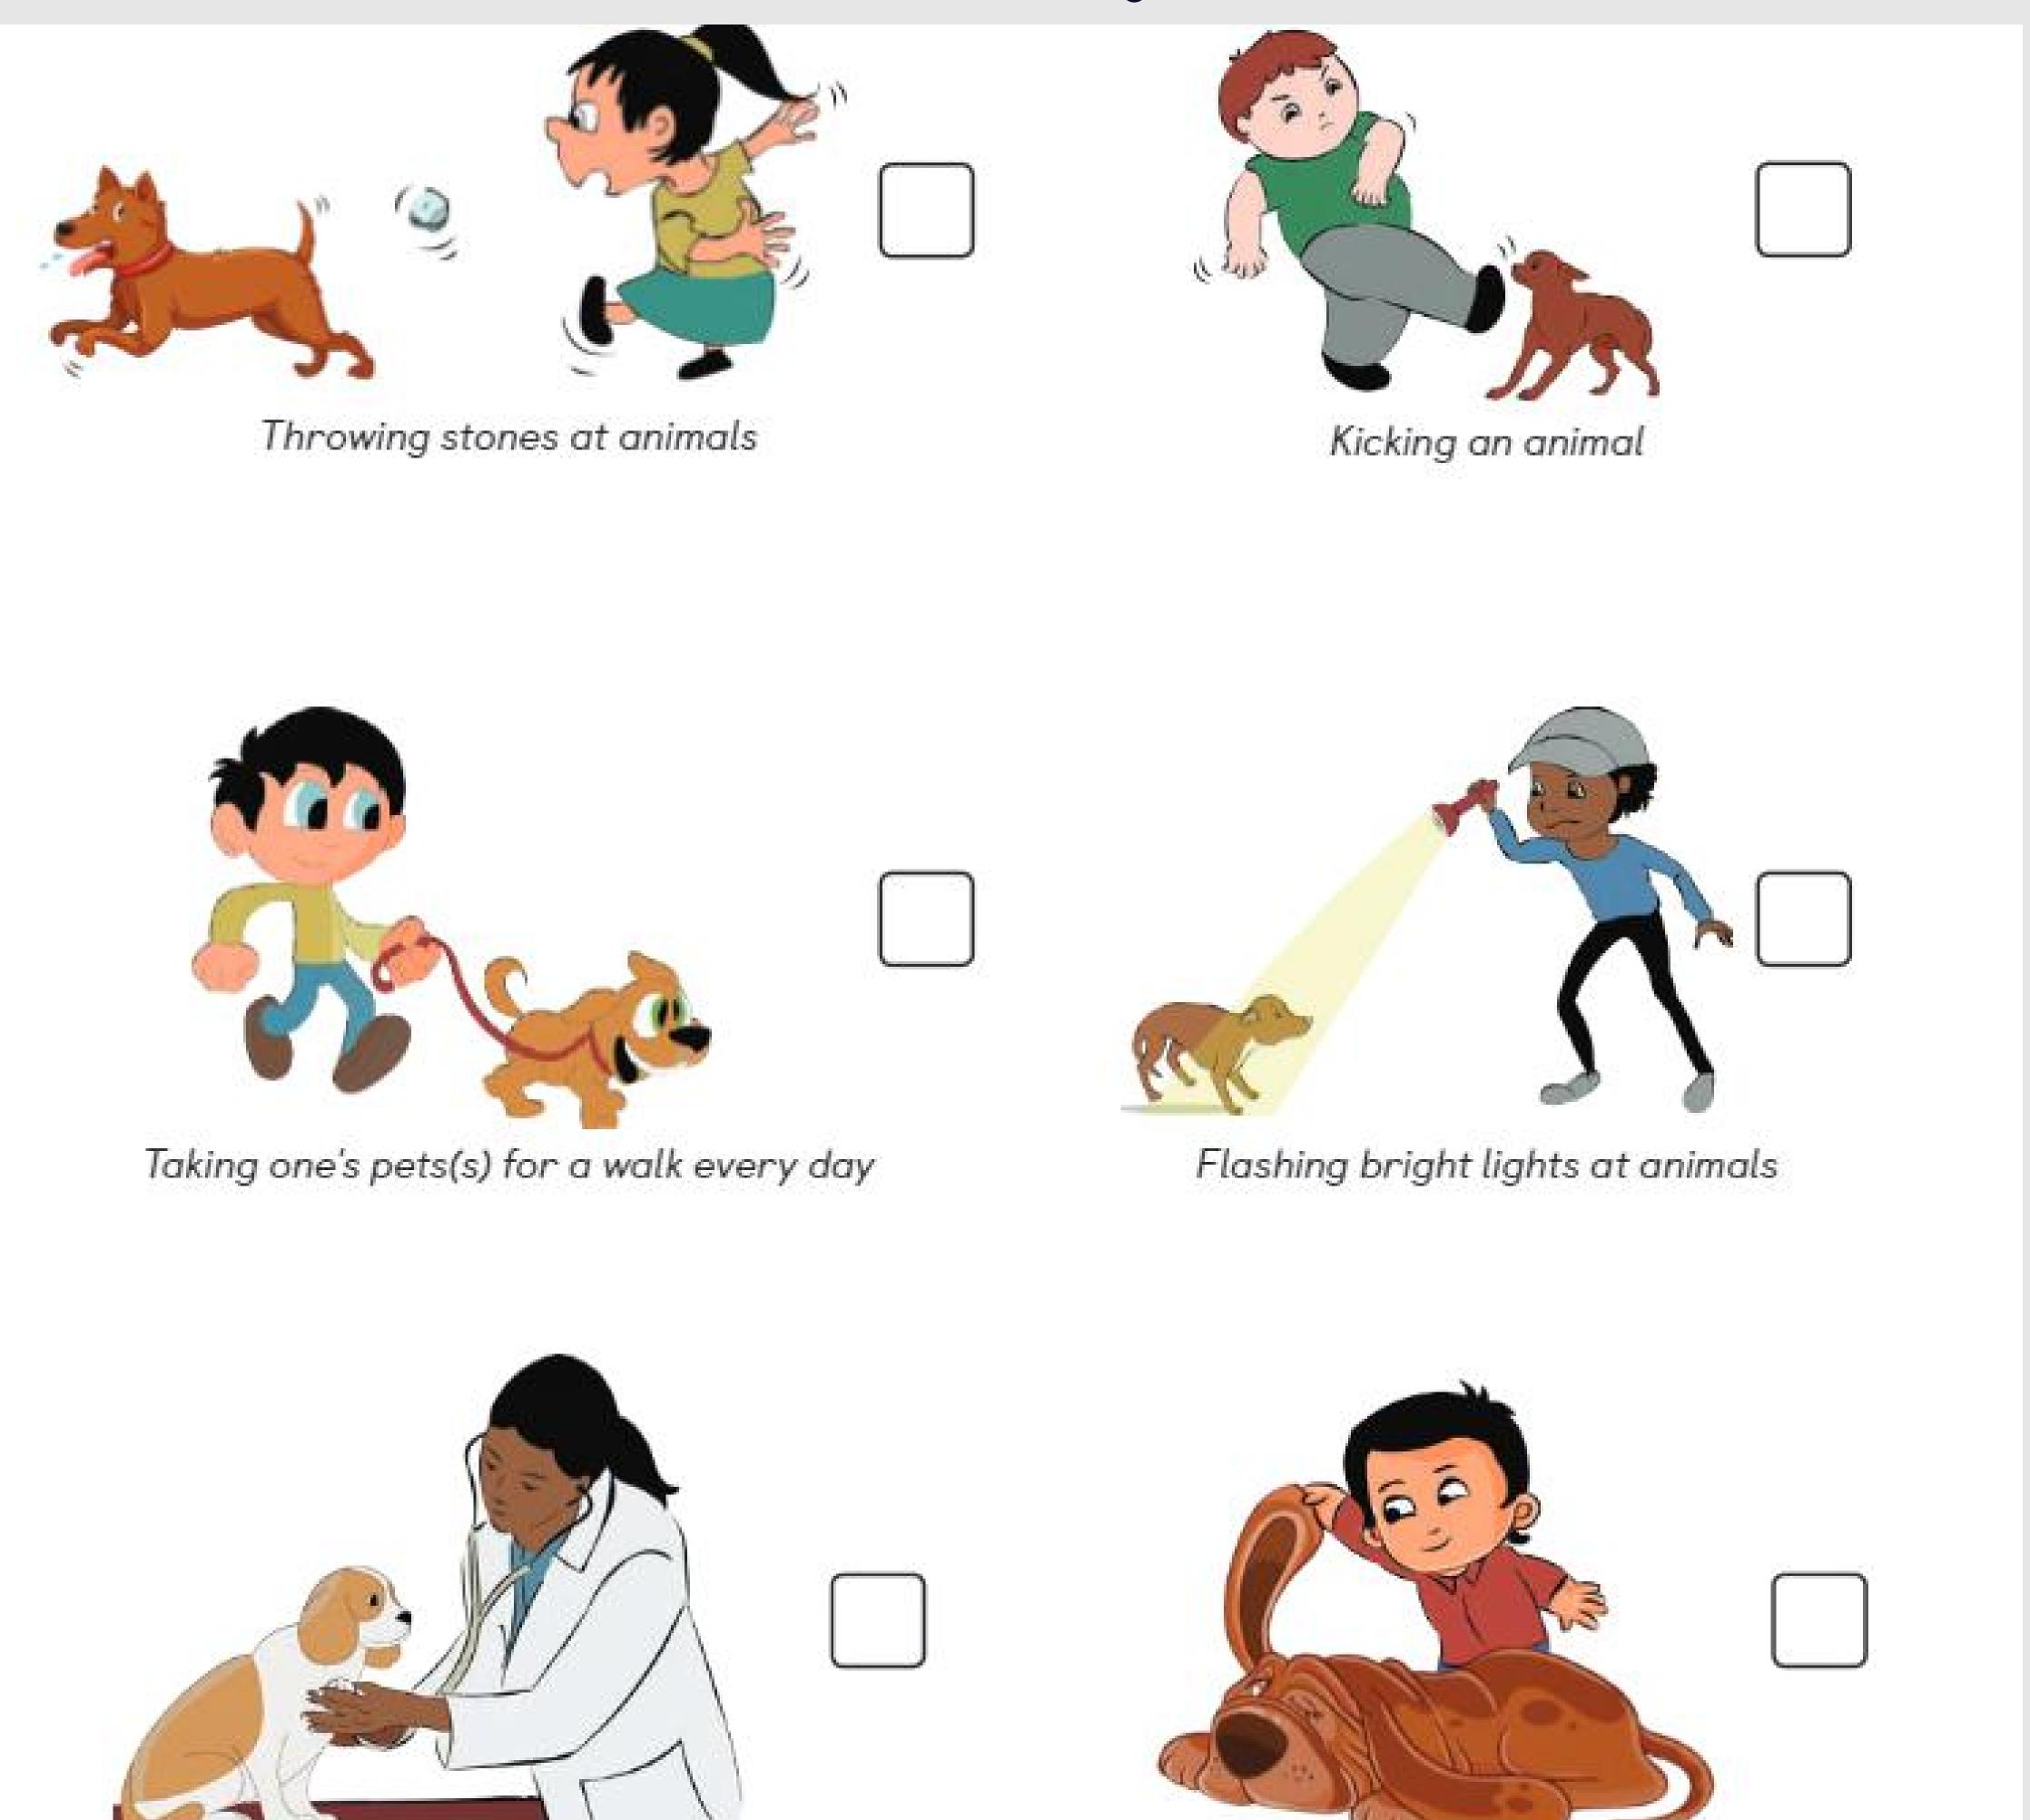

Providing regular health checkups

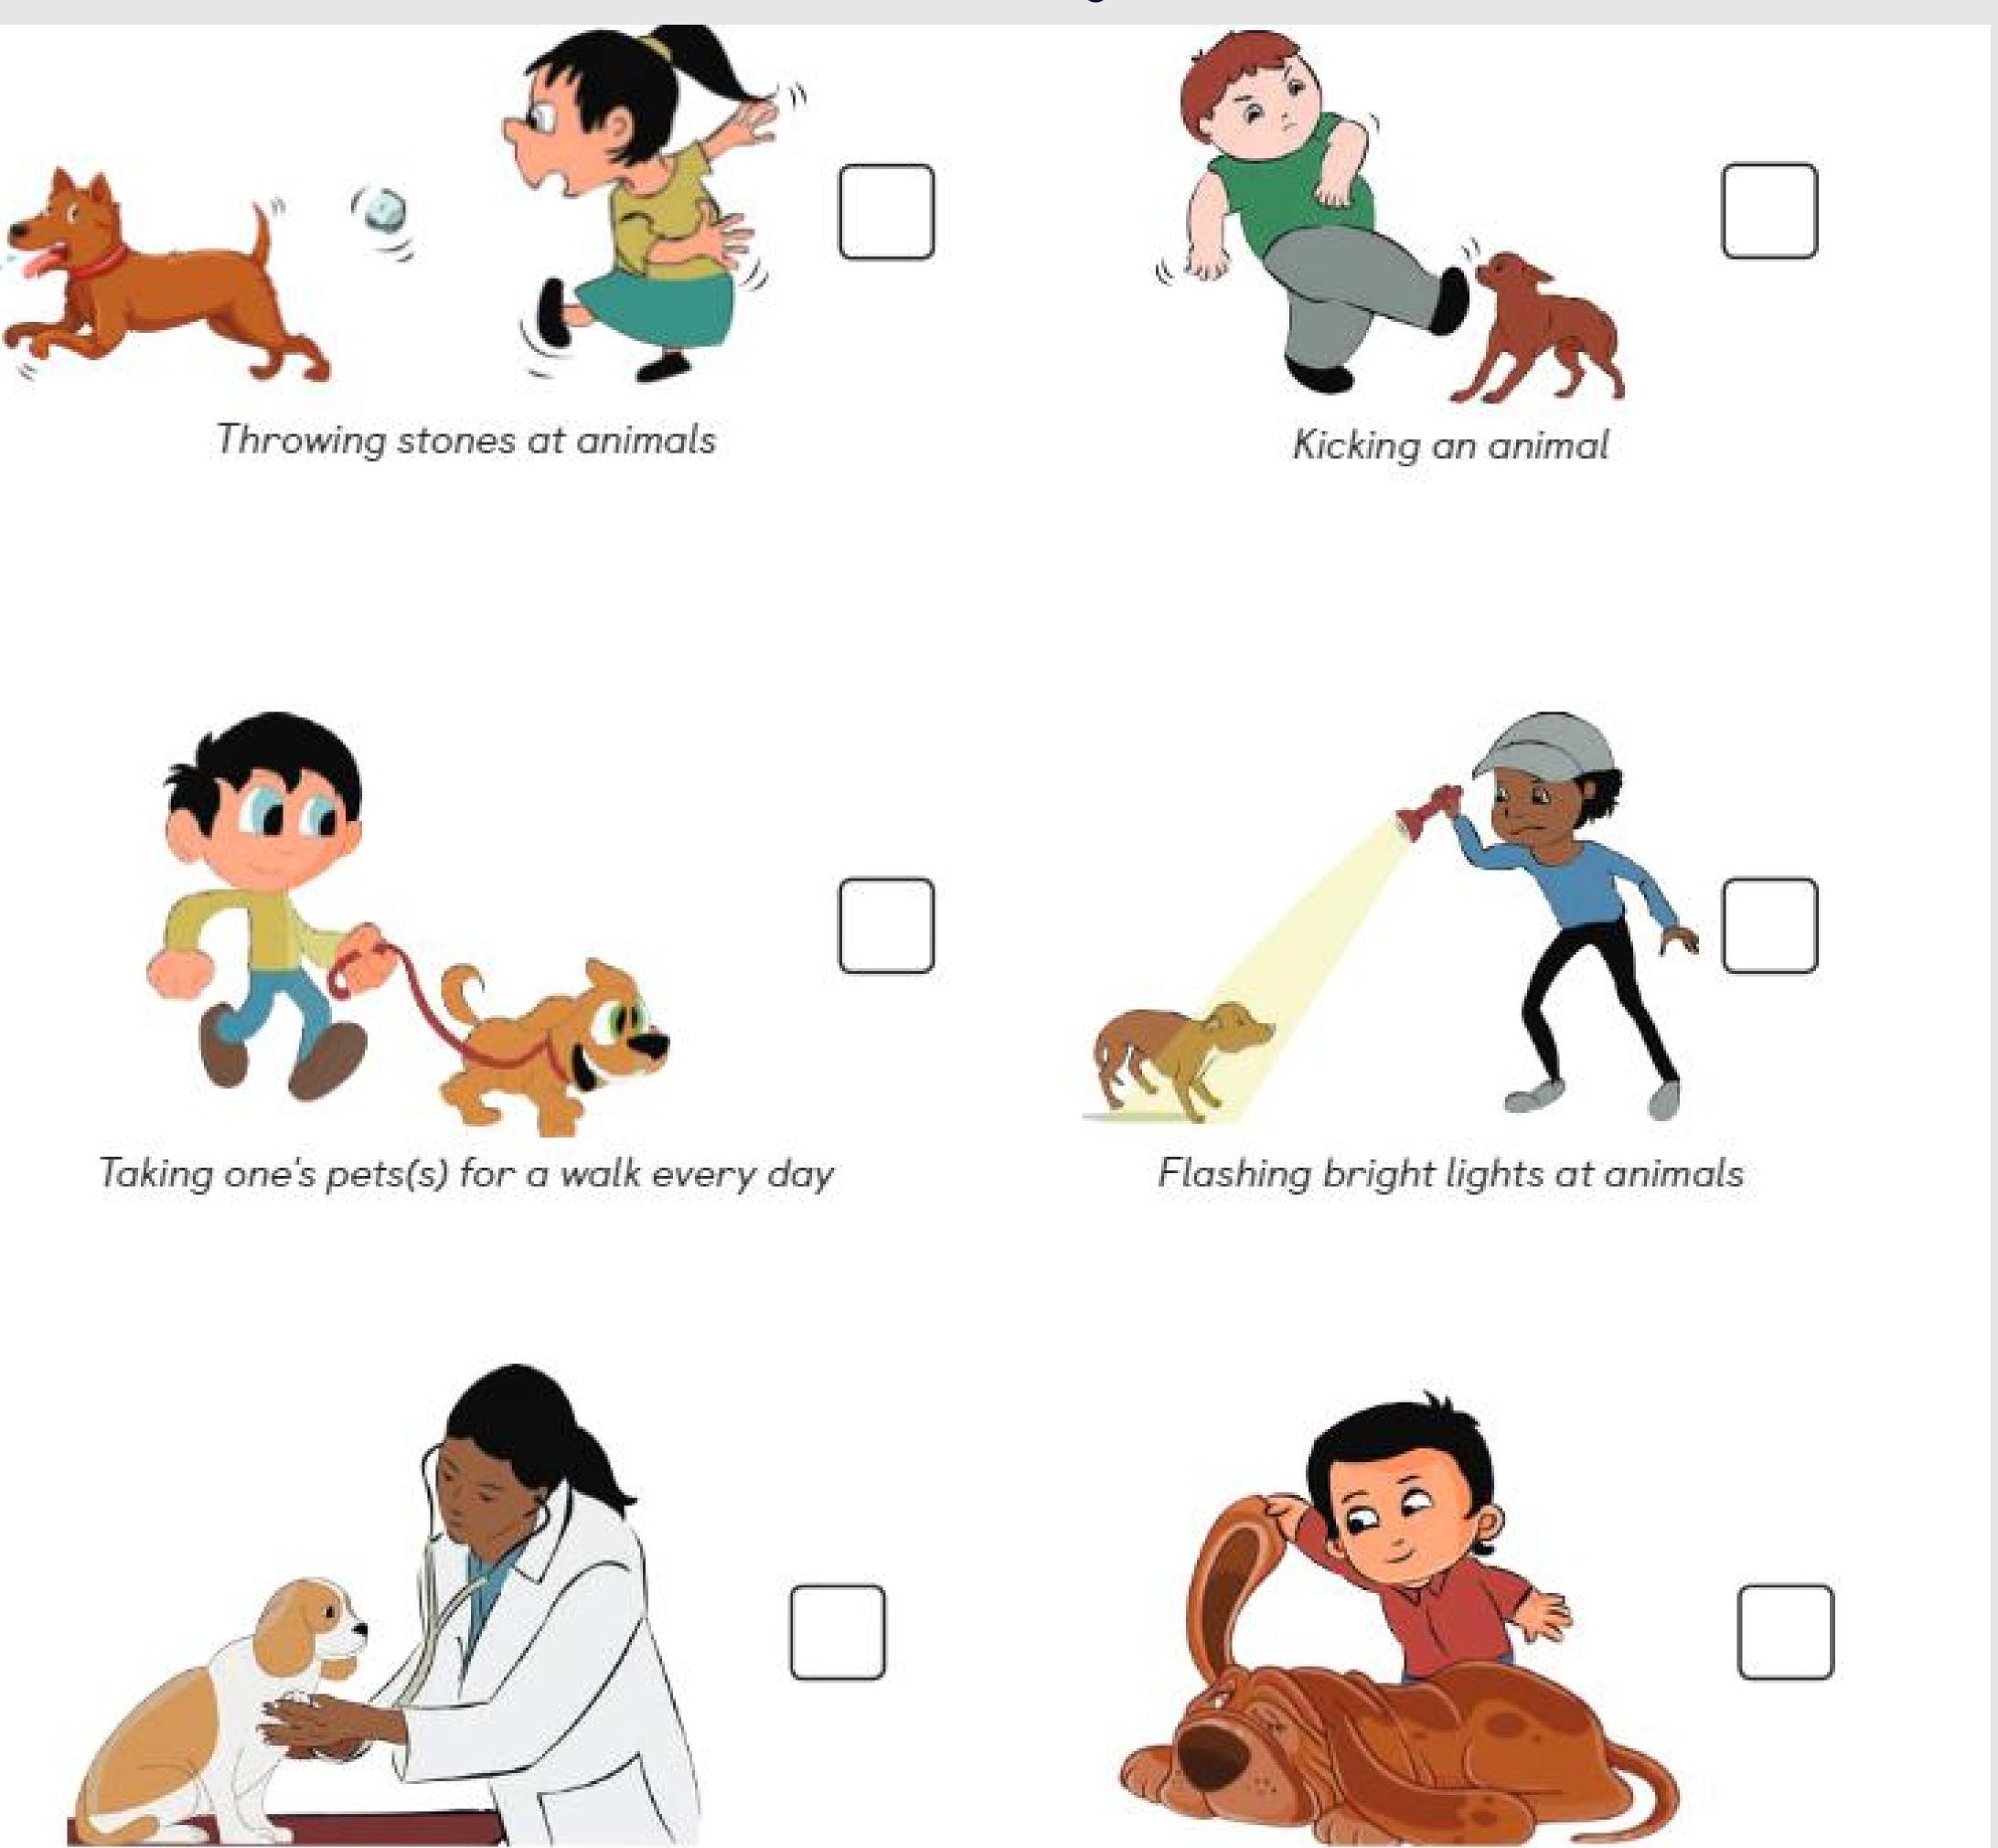

Maintaining a regular schedule for food and play time

#### This week we have assessed ourself by solving the book excercise and worksheet provided. We have also learnt how to take care of pet and stray animals, what could be done to save and make their life comfortable? It taught us empathy and compassion and also an early interest in animals can lead to future careers in fields such as biology, zoology, or environmental conservation.

#### SOCIAL SCIENCE

fun and informative activity!

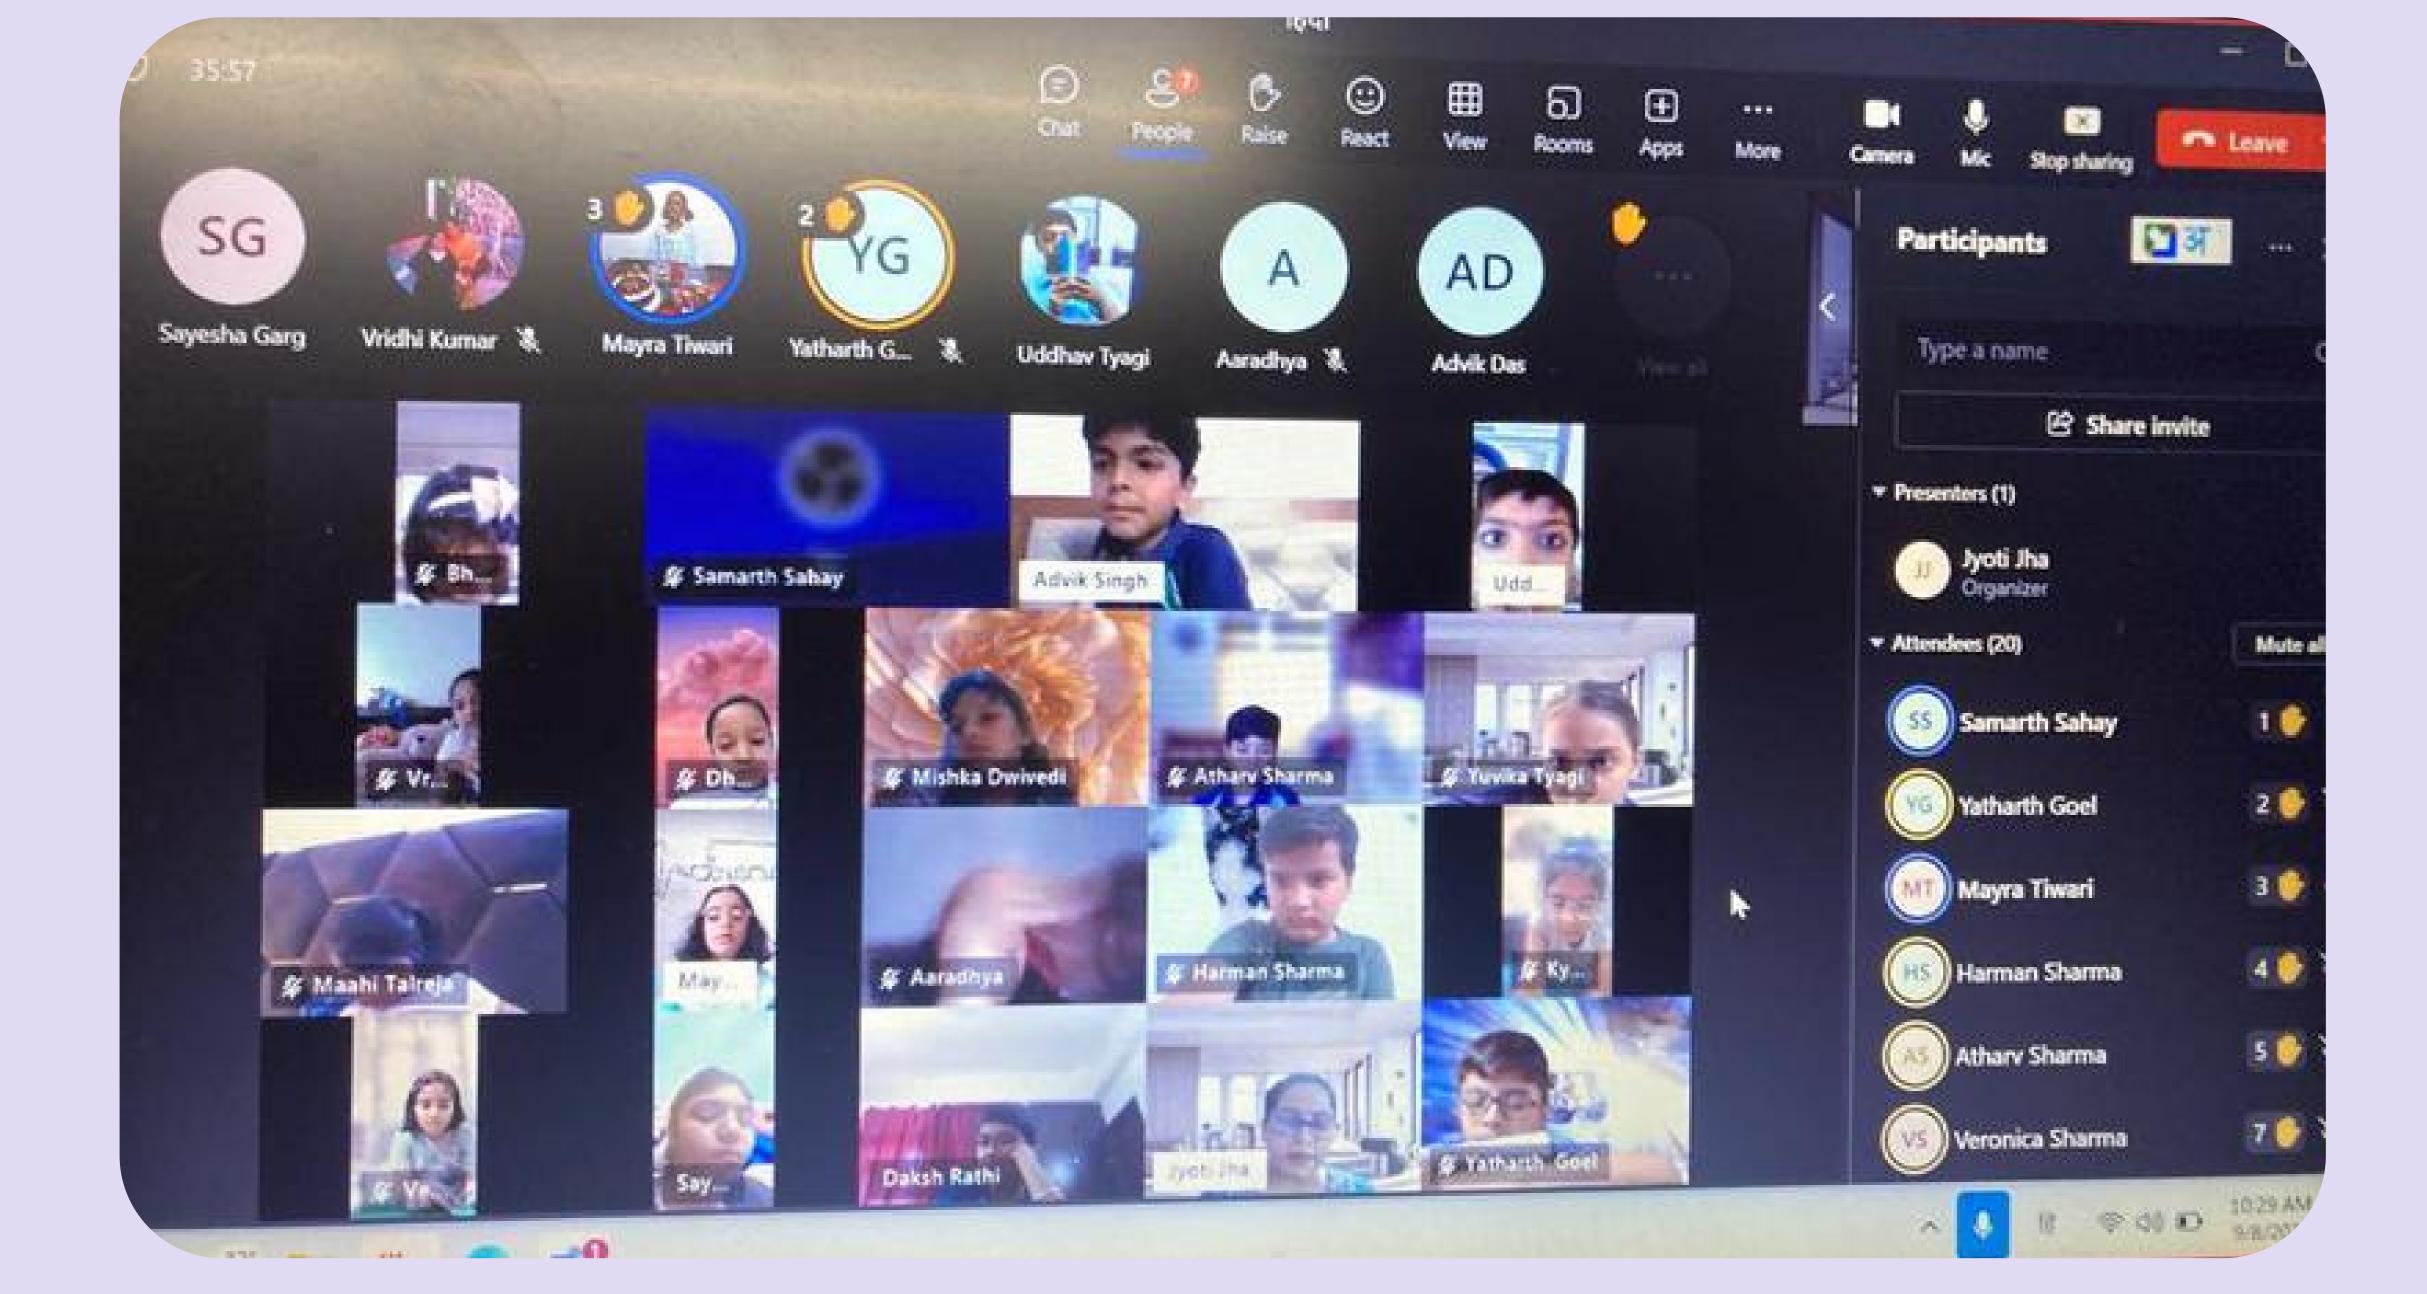

# In Social Science, we watched videos to learn about safety in school, at home and on the road. We had lively discussions, shared ideas and now know how to be safe in different places. It was a

# हमने शब्द भंडार बढ़ाने हेतु 'विलोम शब्द' को विभिन्न उदाहरणों द्वारा समझा तथा खेल के माध्यम से इनका अभ्यास किया|रचनात्मक लेखन के अंतर्गत हमने 'चित्र वर्णन' में चित्र का ध्यानपूर्वक अवलोकन कर वर्णन किया |

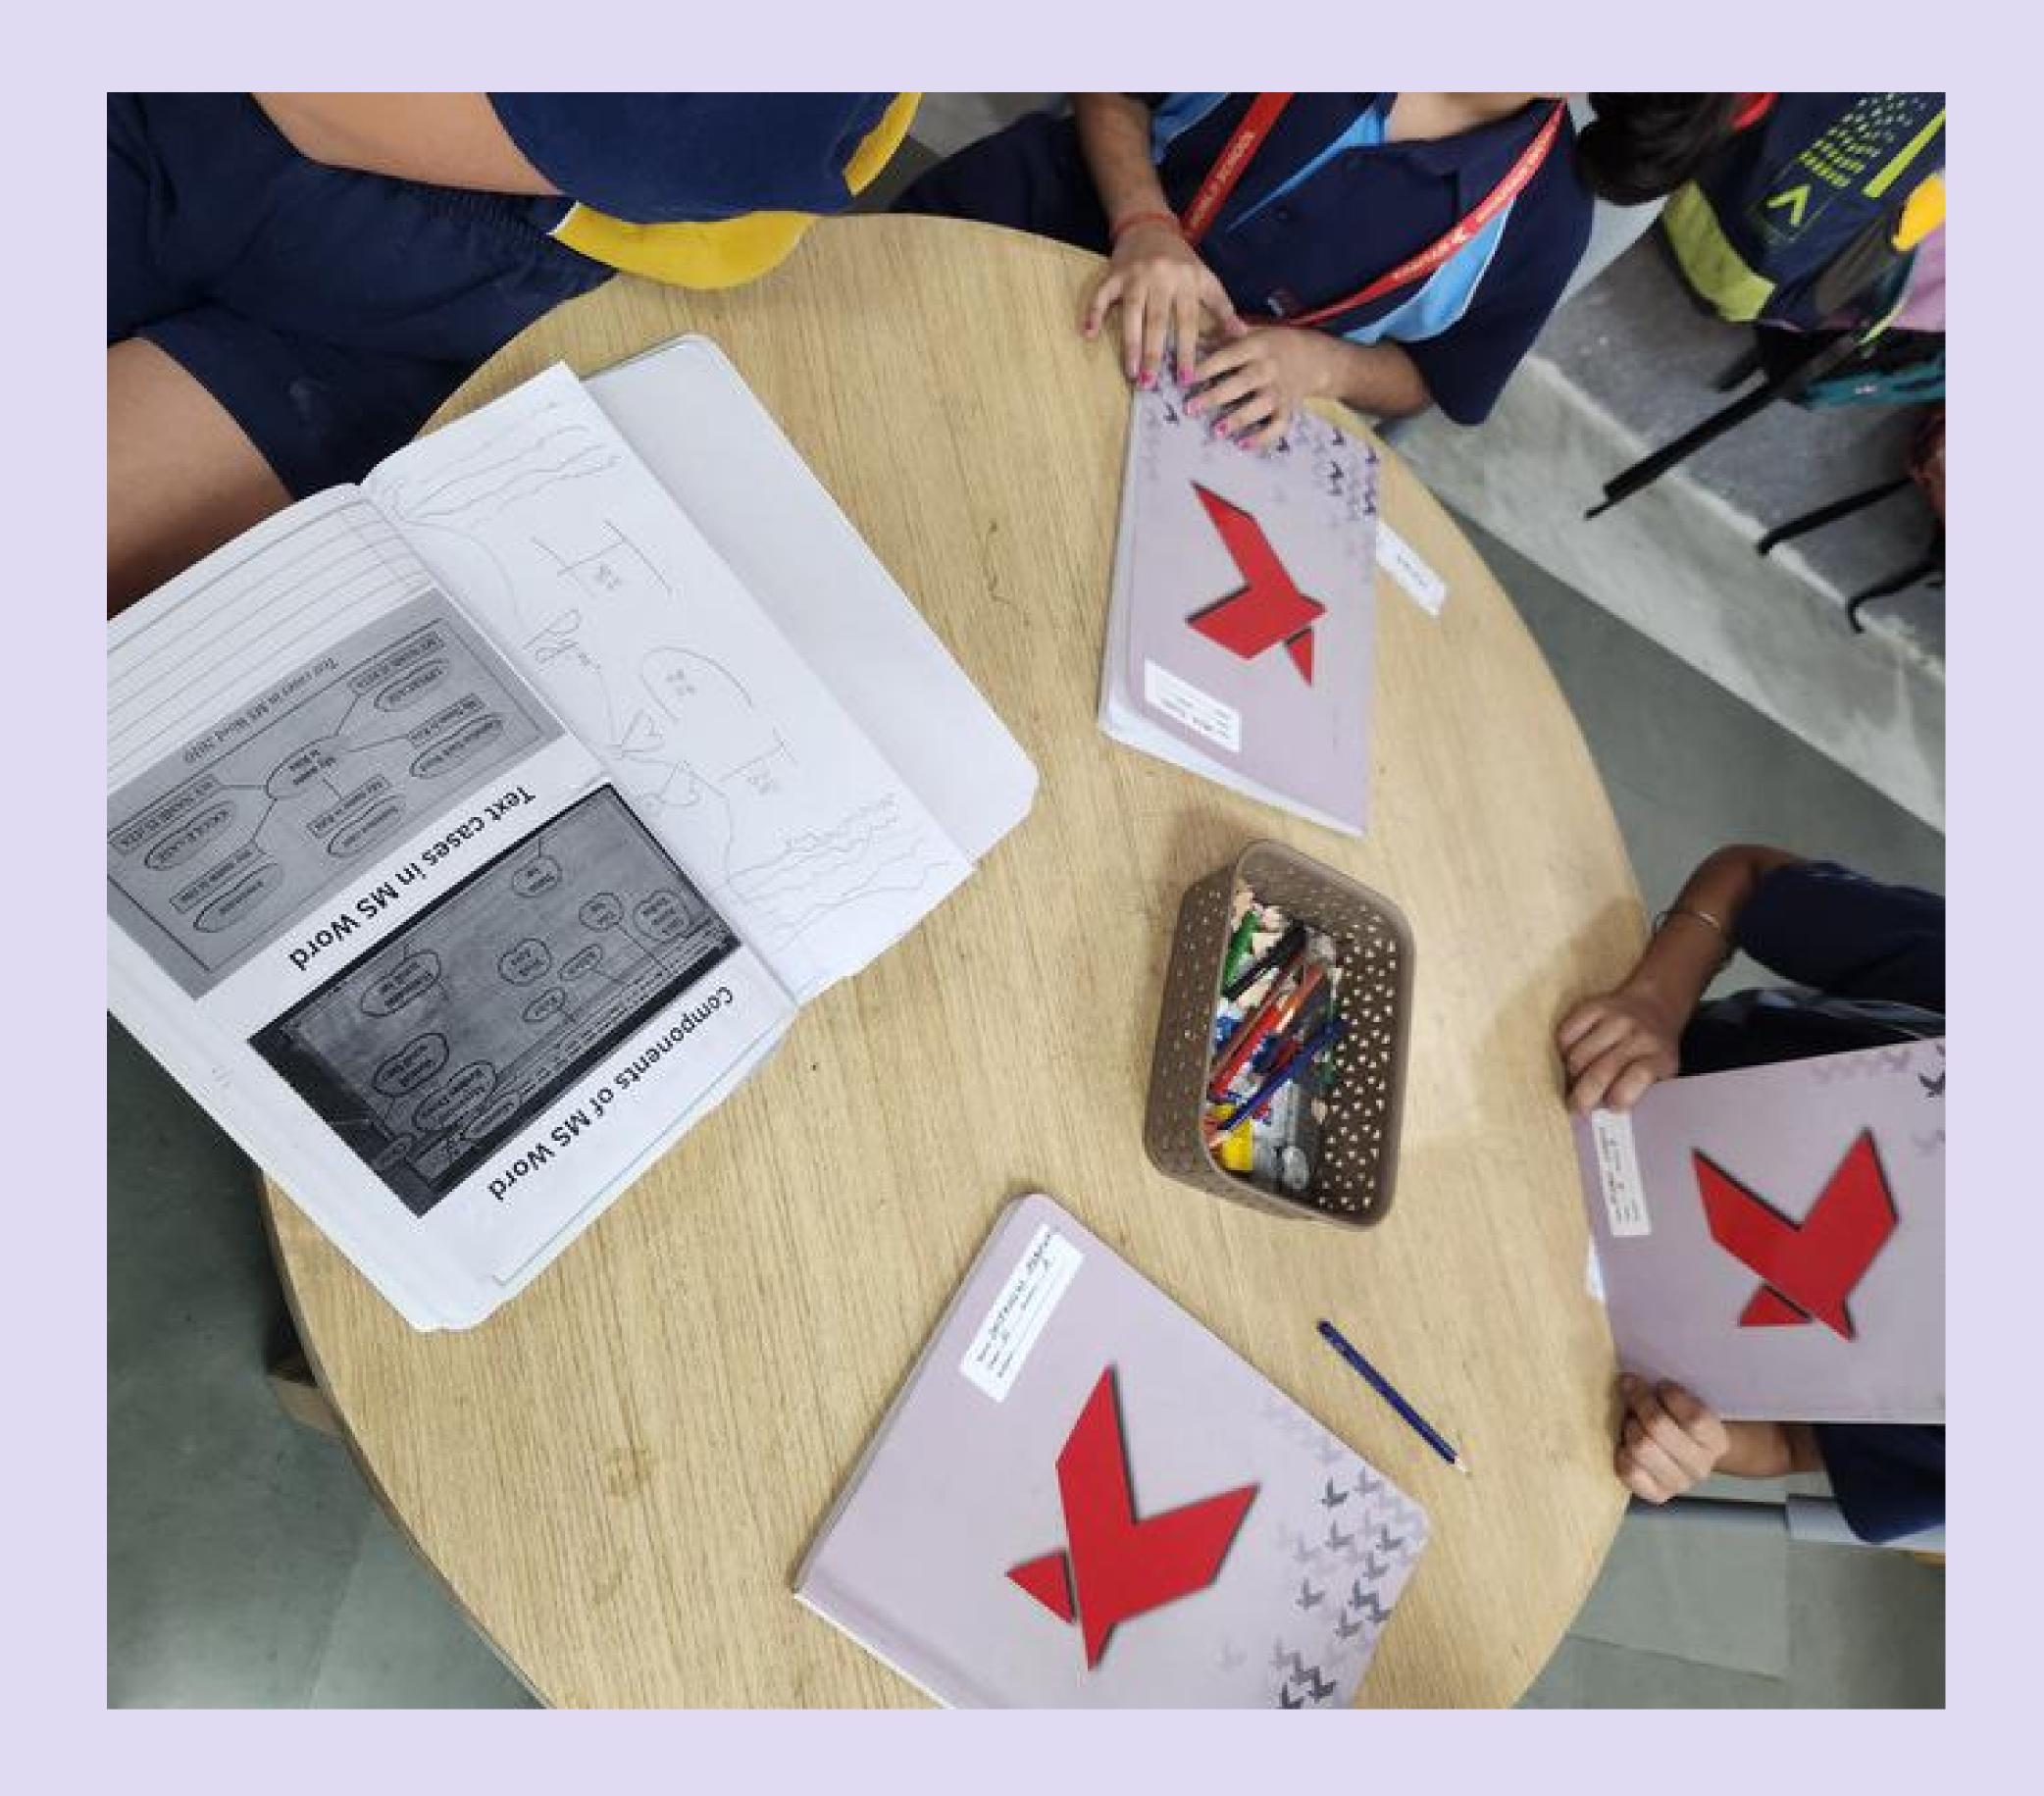

# In the ICT lesson this week, we focussed on the components of MS Word. We discussed and defined the components like ribbon, title bar, status bar, work area, etc. We also used different shortcuts like ctrl+z for undo, ctrl+y for redo, ctrl+c for copy, ctrl+p for paste, etc. We are suppose to use MS Word at home as well.

#### 

# PERFORMING ARTS-MUSIC

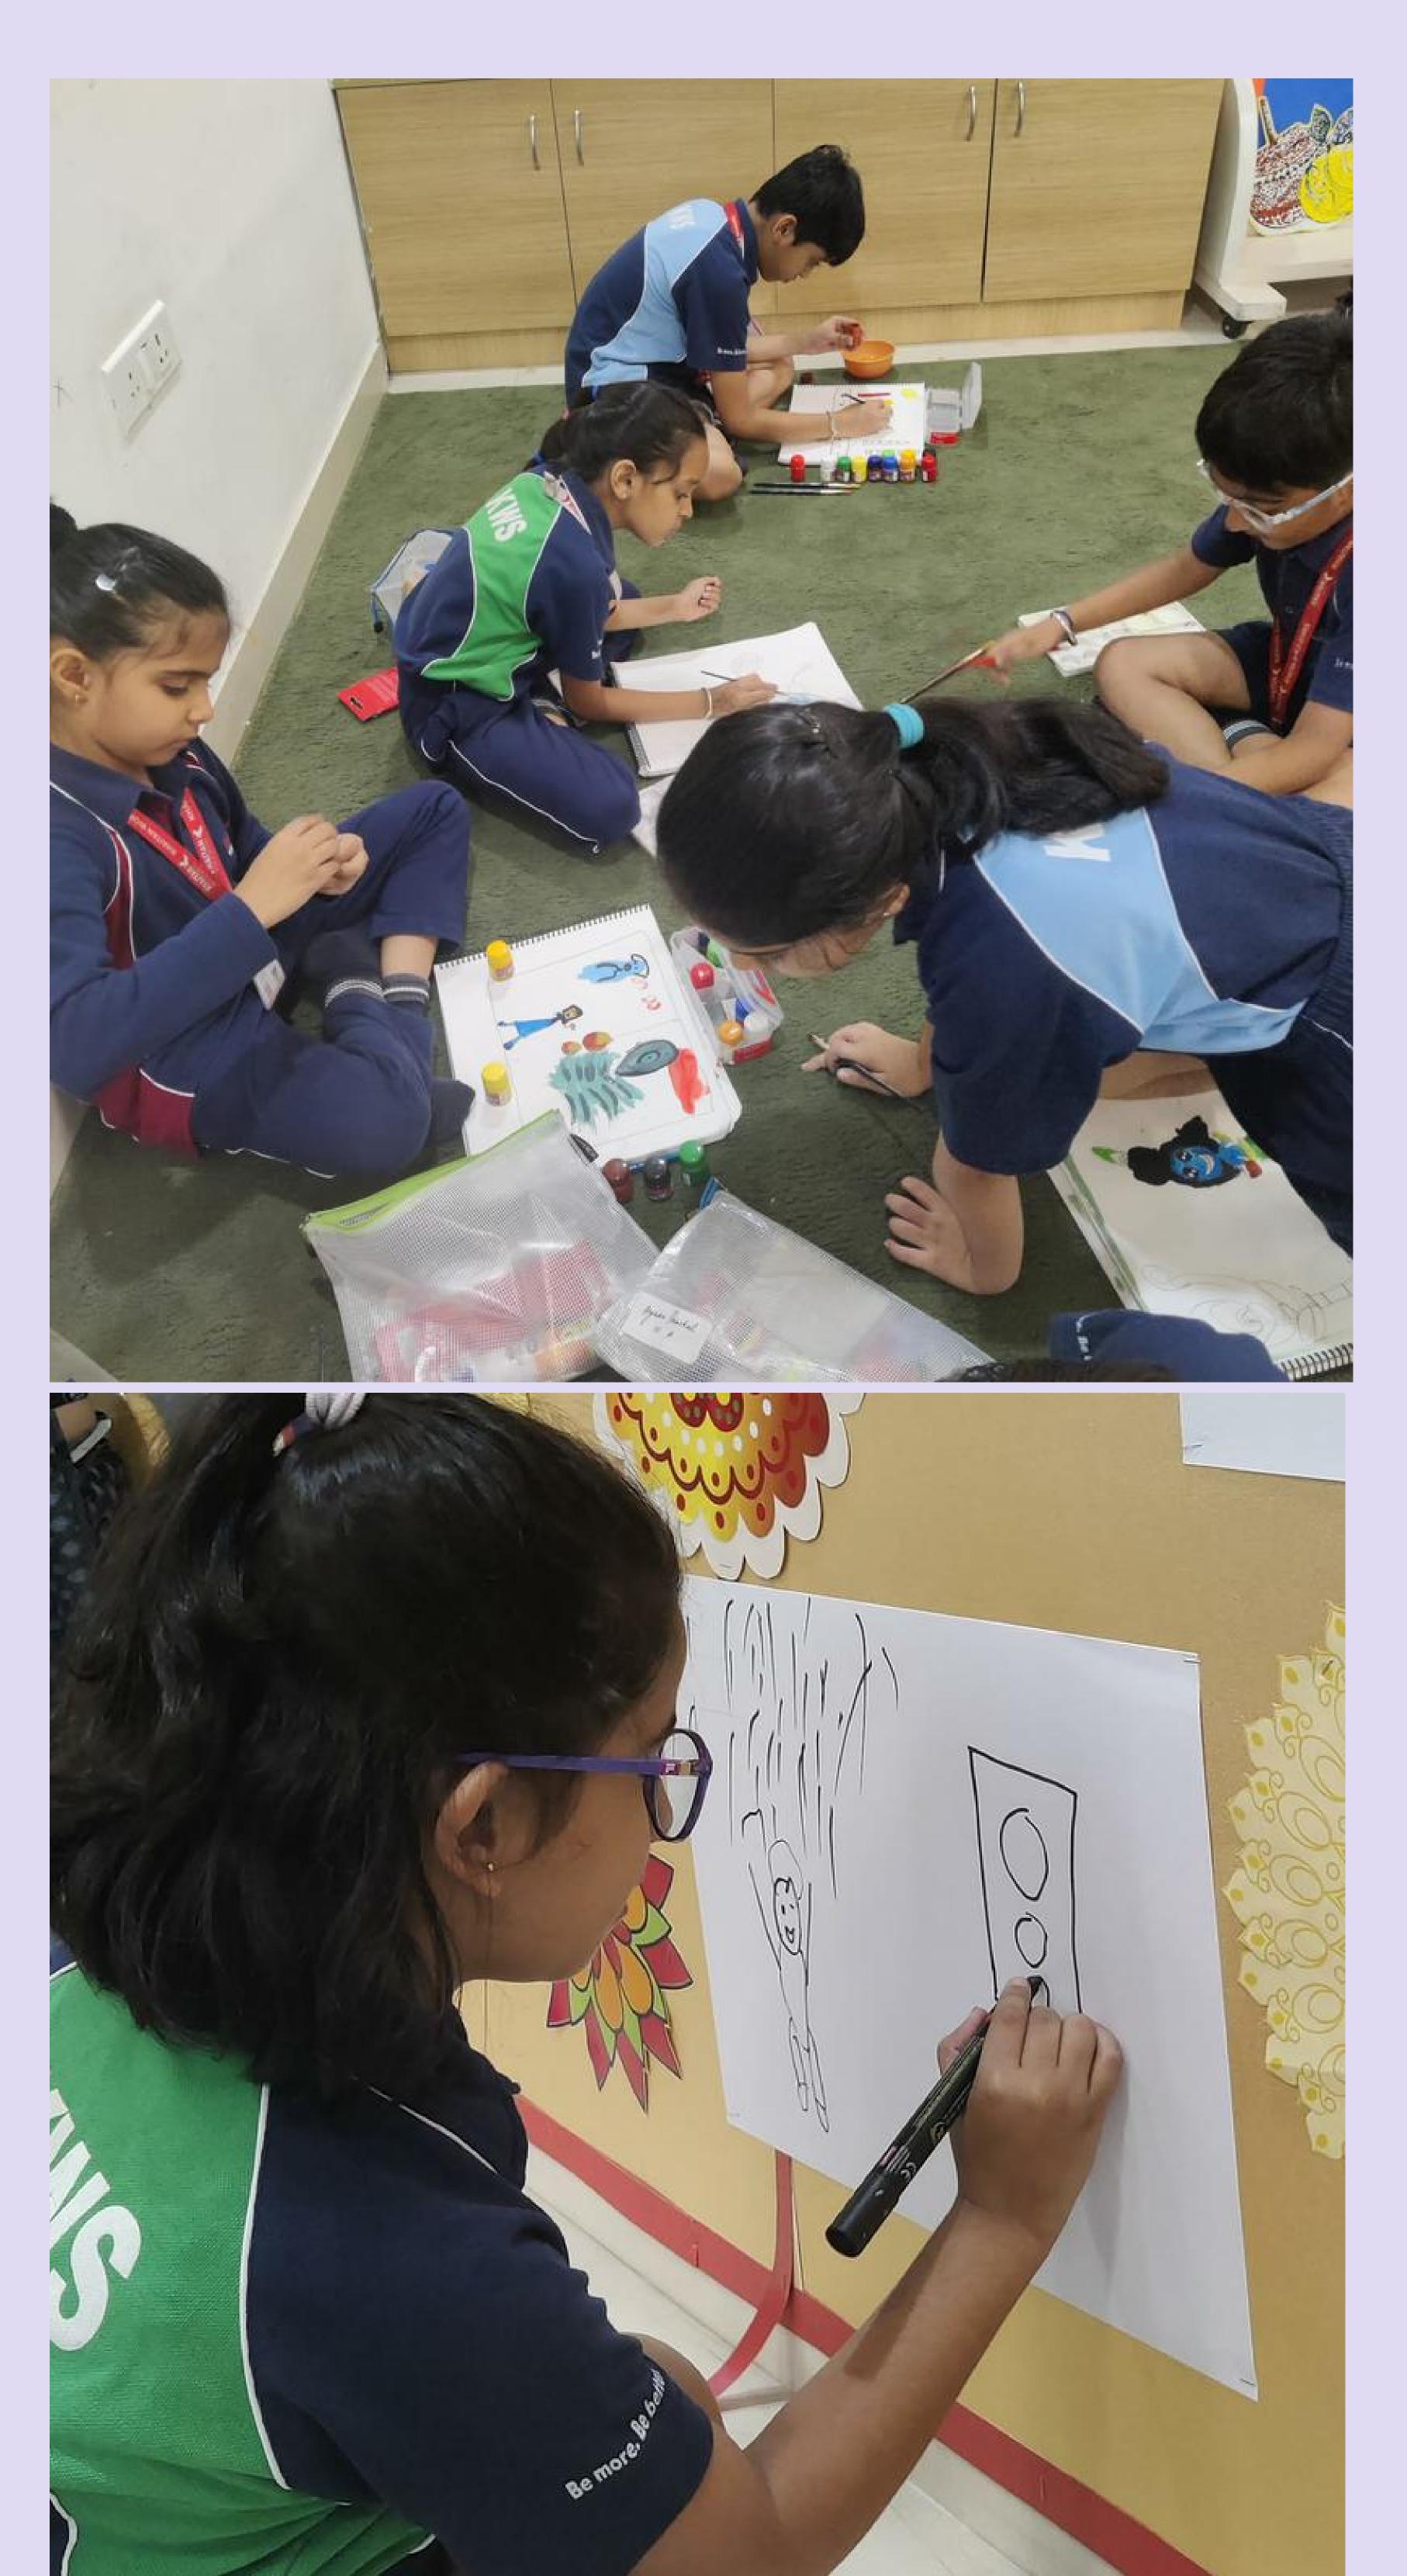

In our music class, we completed learning the song 'Never give up by Sia' and added some choir singing in it. We then moved on to an activity "shake the tambourine" before moving forward for the vocal warm-up exercises which included the singing of "Sargams".

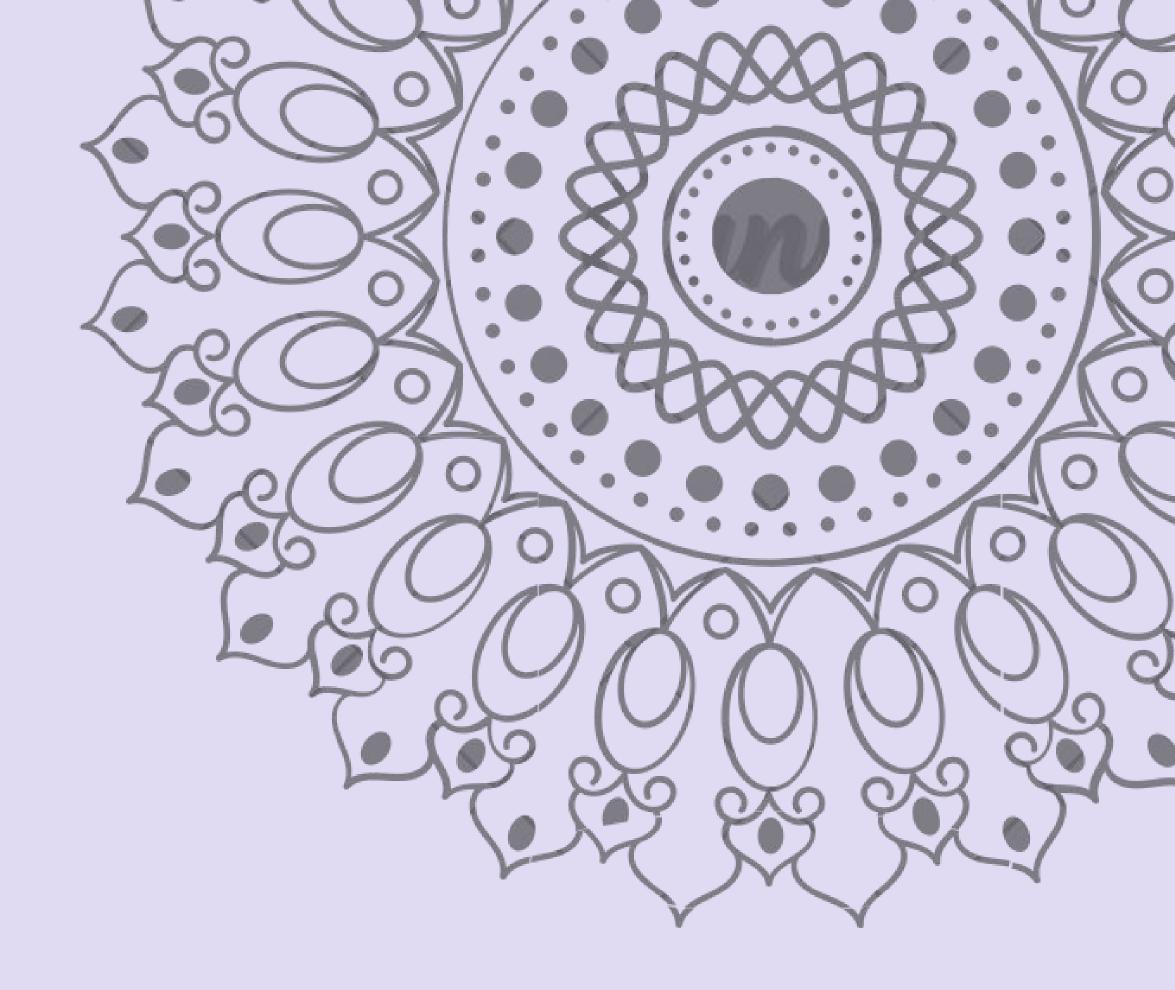

# PERFORMING ARTS-DANCE

In our dance lesson, we worked on upper body flexibility and balance. We also continued working on the new choreography "A million dreams" where the students learnt about formations in choreography.

VISUAL ARTS Our students were treated to a special art class where they had two exciting choices. One group opted for a picturesque adventure through the art game, while the other group decided to paint compositions based on the themes of Teachers' Day or Krishna. Both options allowed our young artists to express themselves creatively and pay tribute to their teachers or explore the beauty of Krishna's stories through art. It was a day filled with artistic choices, joyful learning, and a celebration of both our educators and the rich cultural heritage of Krishna's tales.

# This week in physical education we have done some catching activities with the soft ball

#### PHYSICAL EDUCATION

# where they have to throw the ball and catch it among each other.

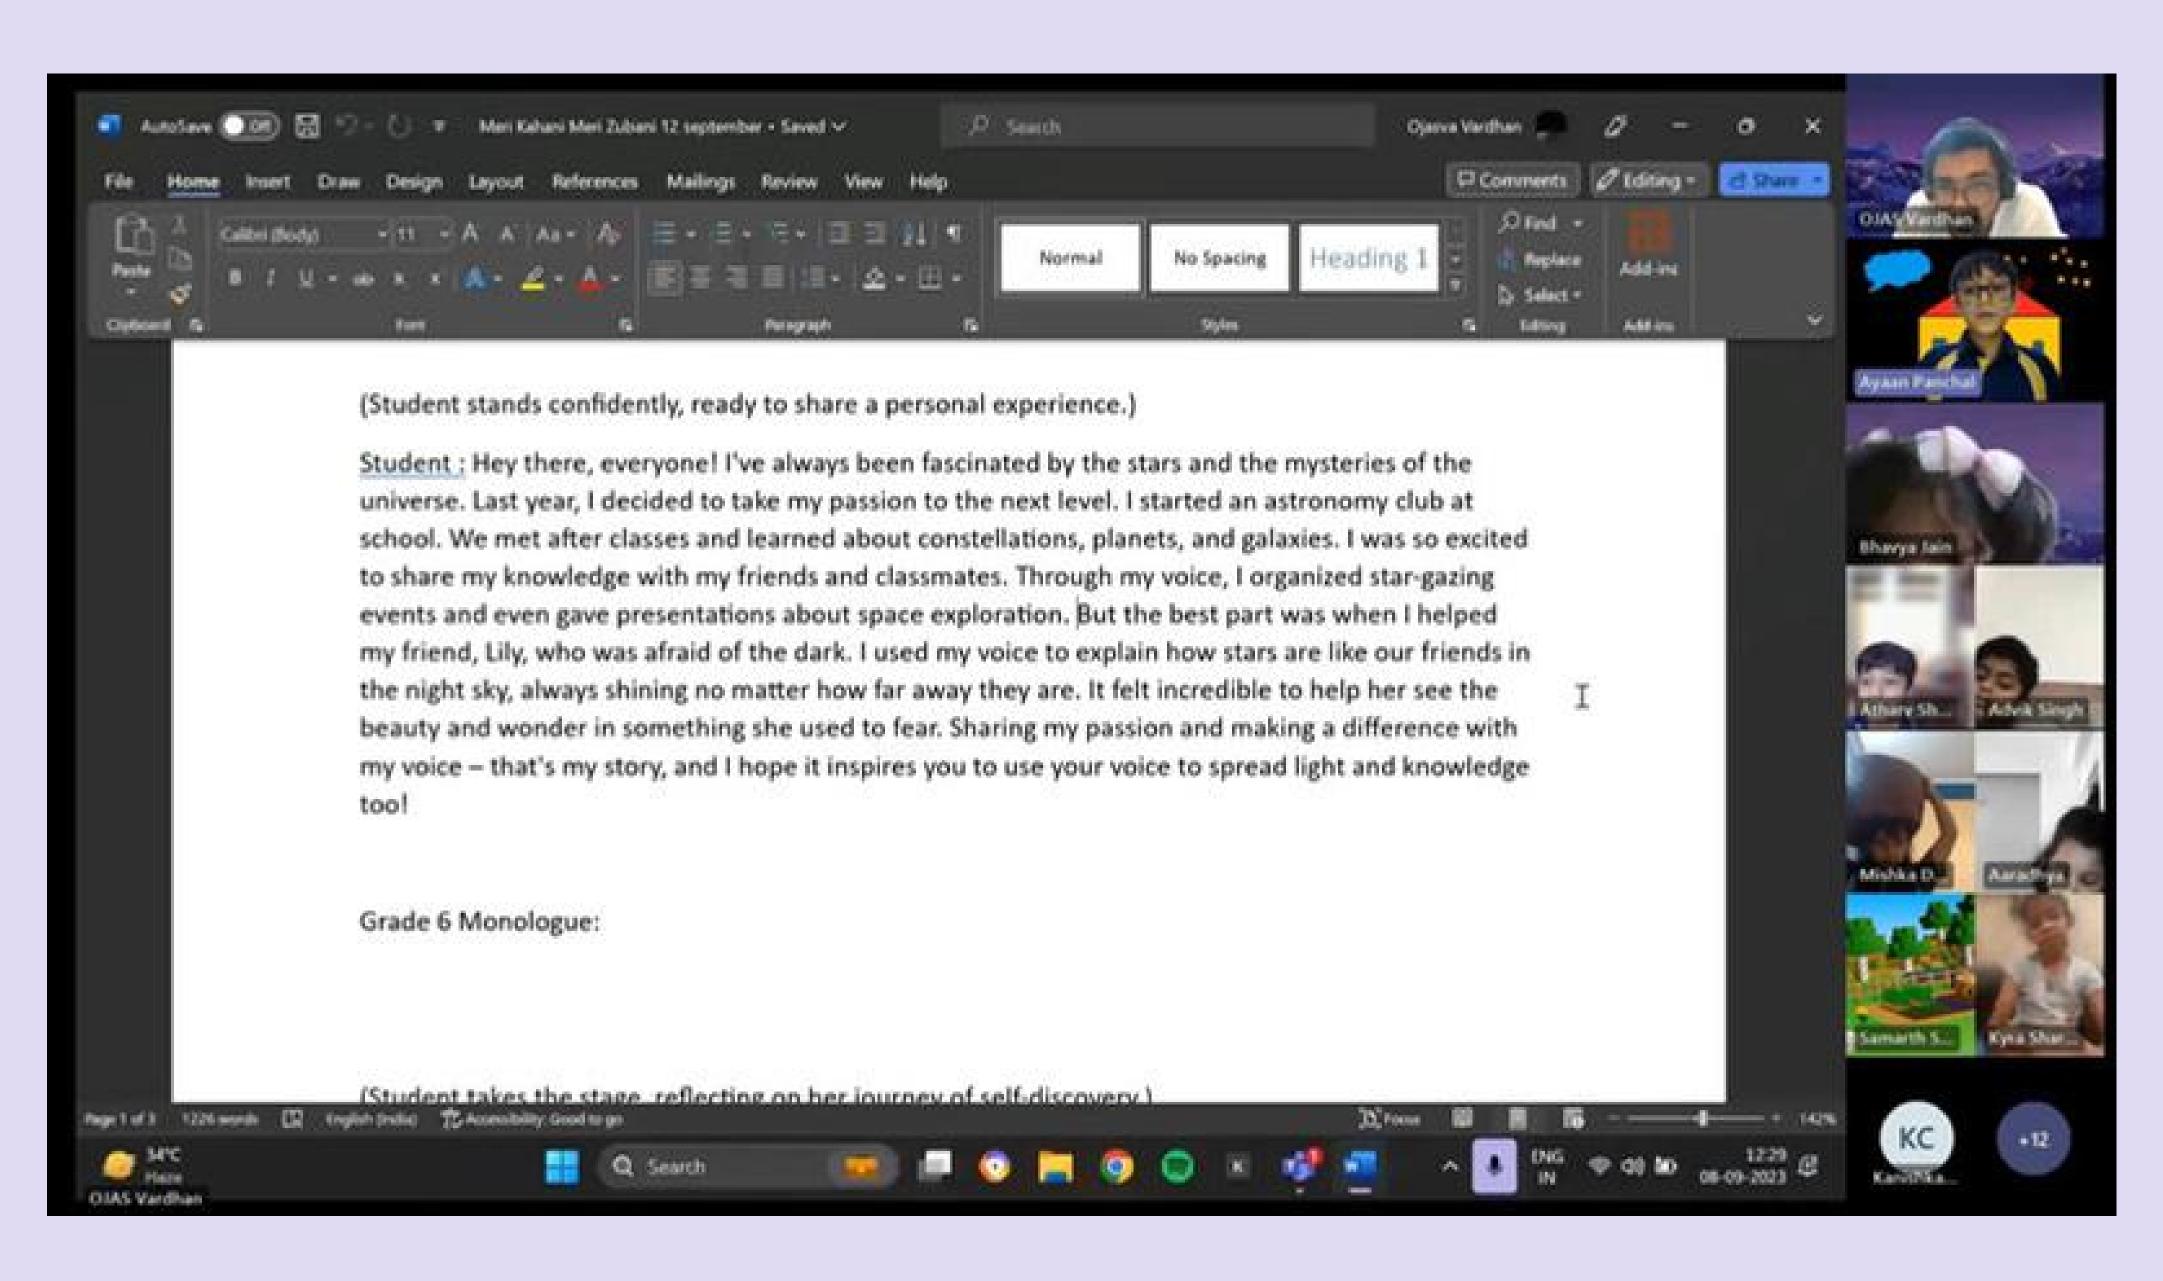

MAKER SPACE In our Maker Space class, we have learnt the livelihood of Maasai people living in South Africa and California last week. This week we tried our hands in making mud houses and we have made beautiful clay houses.

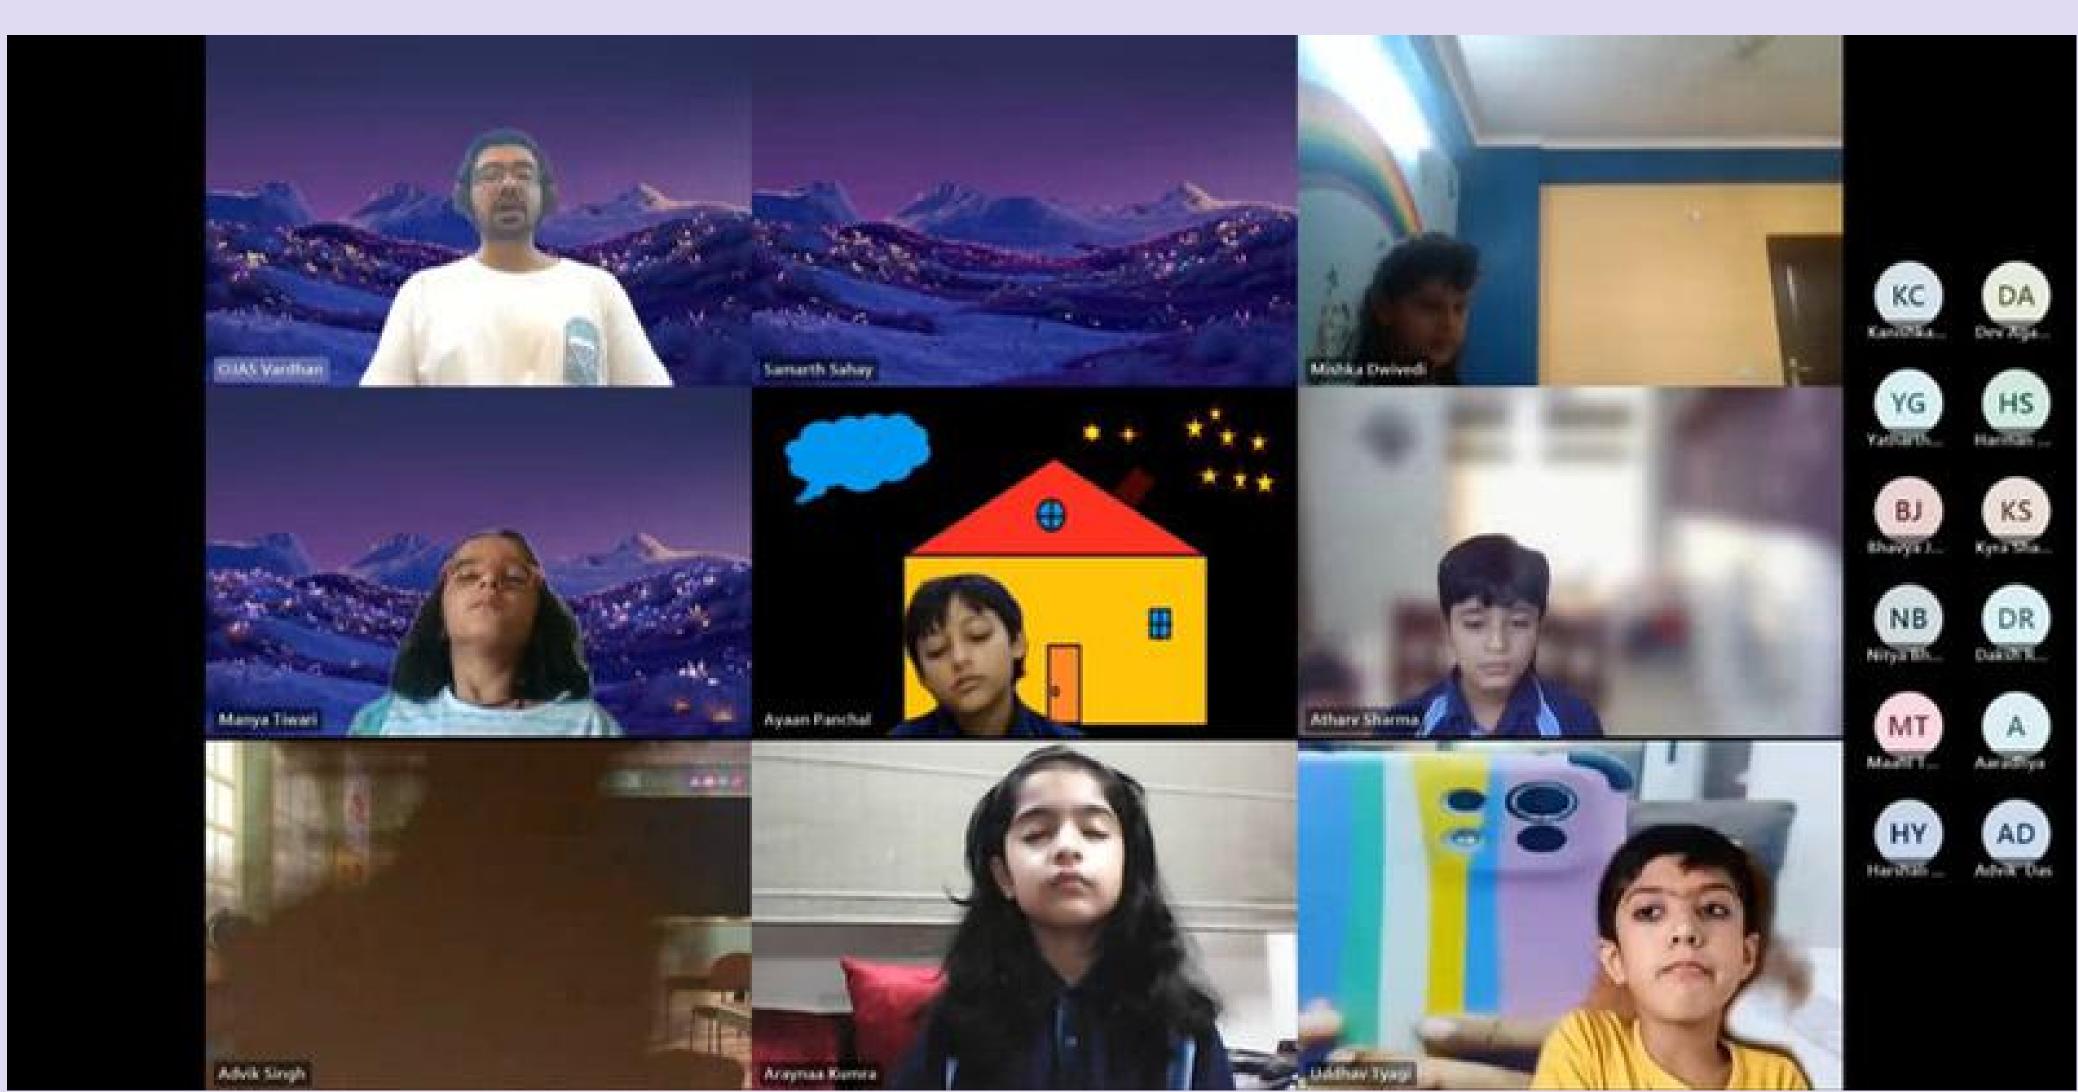

#### PERFORMING ARTS-DRAMA

This week we worked on our speech, expressing the text and communication

# Had a great week together looking forward to many more.
