 10. the Justice

LITERACY ENGLISH

In our Literacy English lessons, we continued reading the novel 'Cam Jansen: The Mystery at the Monkey House' under the guidance of our teacher. In spelling, we started the concept of 'Homographs' and did related tasks in the spelling companion.

हिन्दी

Be more. Be better.
KHAITAN

हमने शब्द भंडार बढ़ाने हेतु 'विलोम शब्द' को विभिन्न उदाहरणों द्वारा समझा तथा खेल के माध्यम से इनका अभ्यास किया । रचनात्मक लेखन के अंतर्गत हमने 'चित्र वर्णन' चित्र का ध्यानपूर्वक अवलोकन कर किया ।

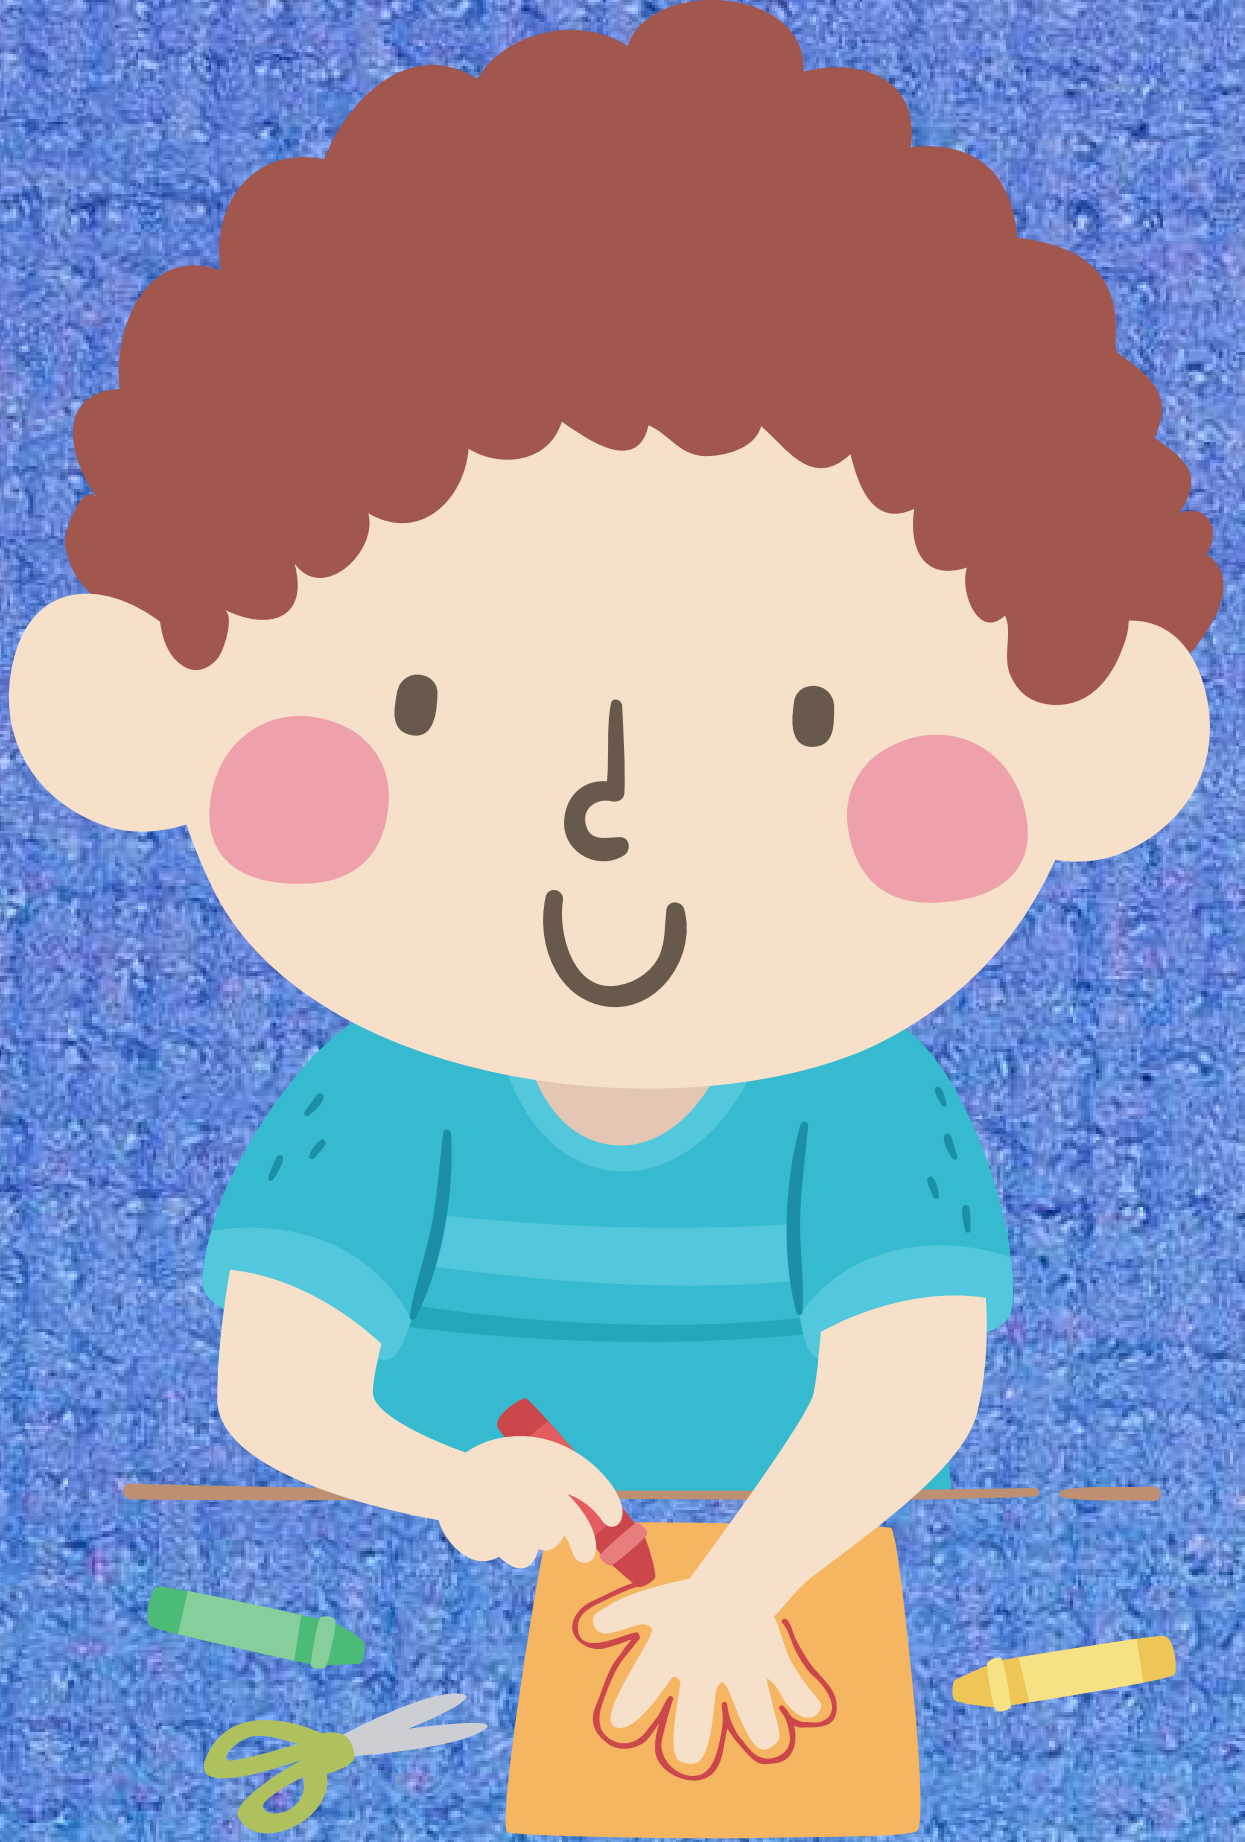

Numeracy

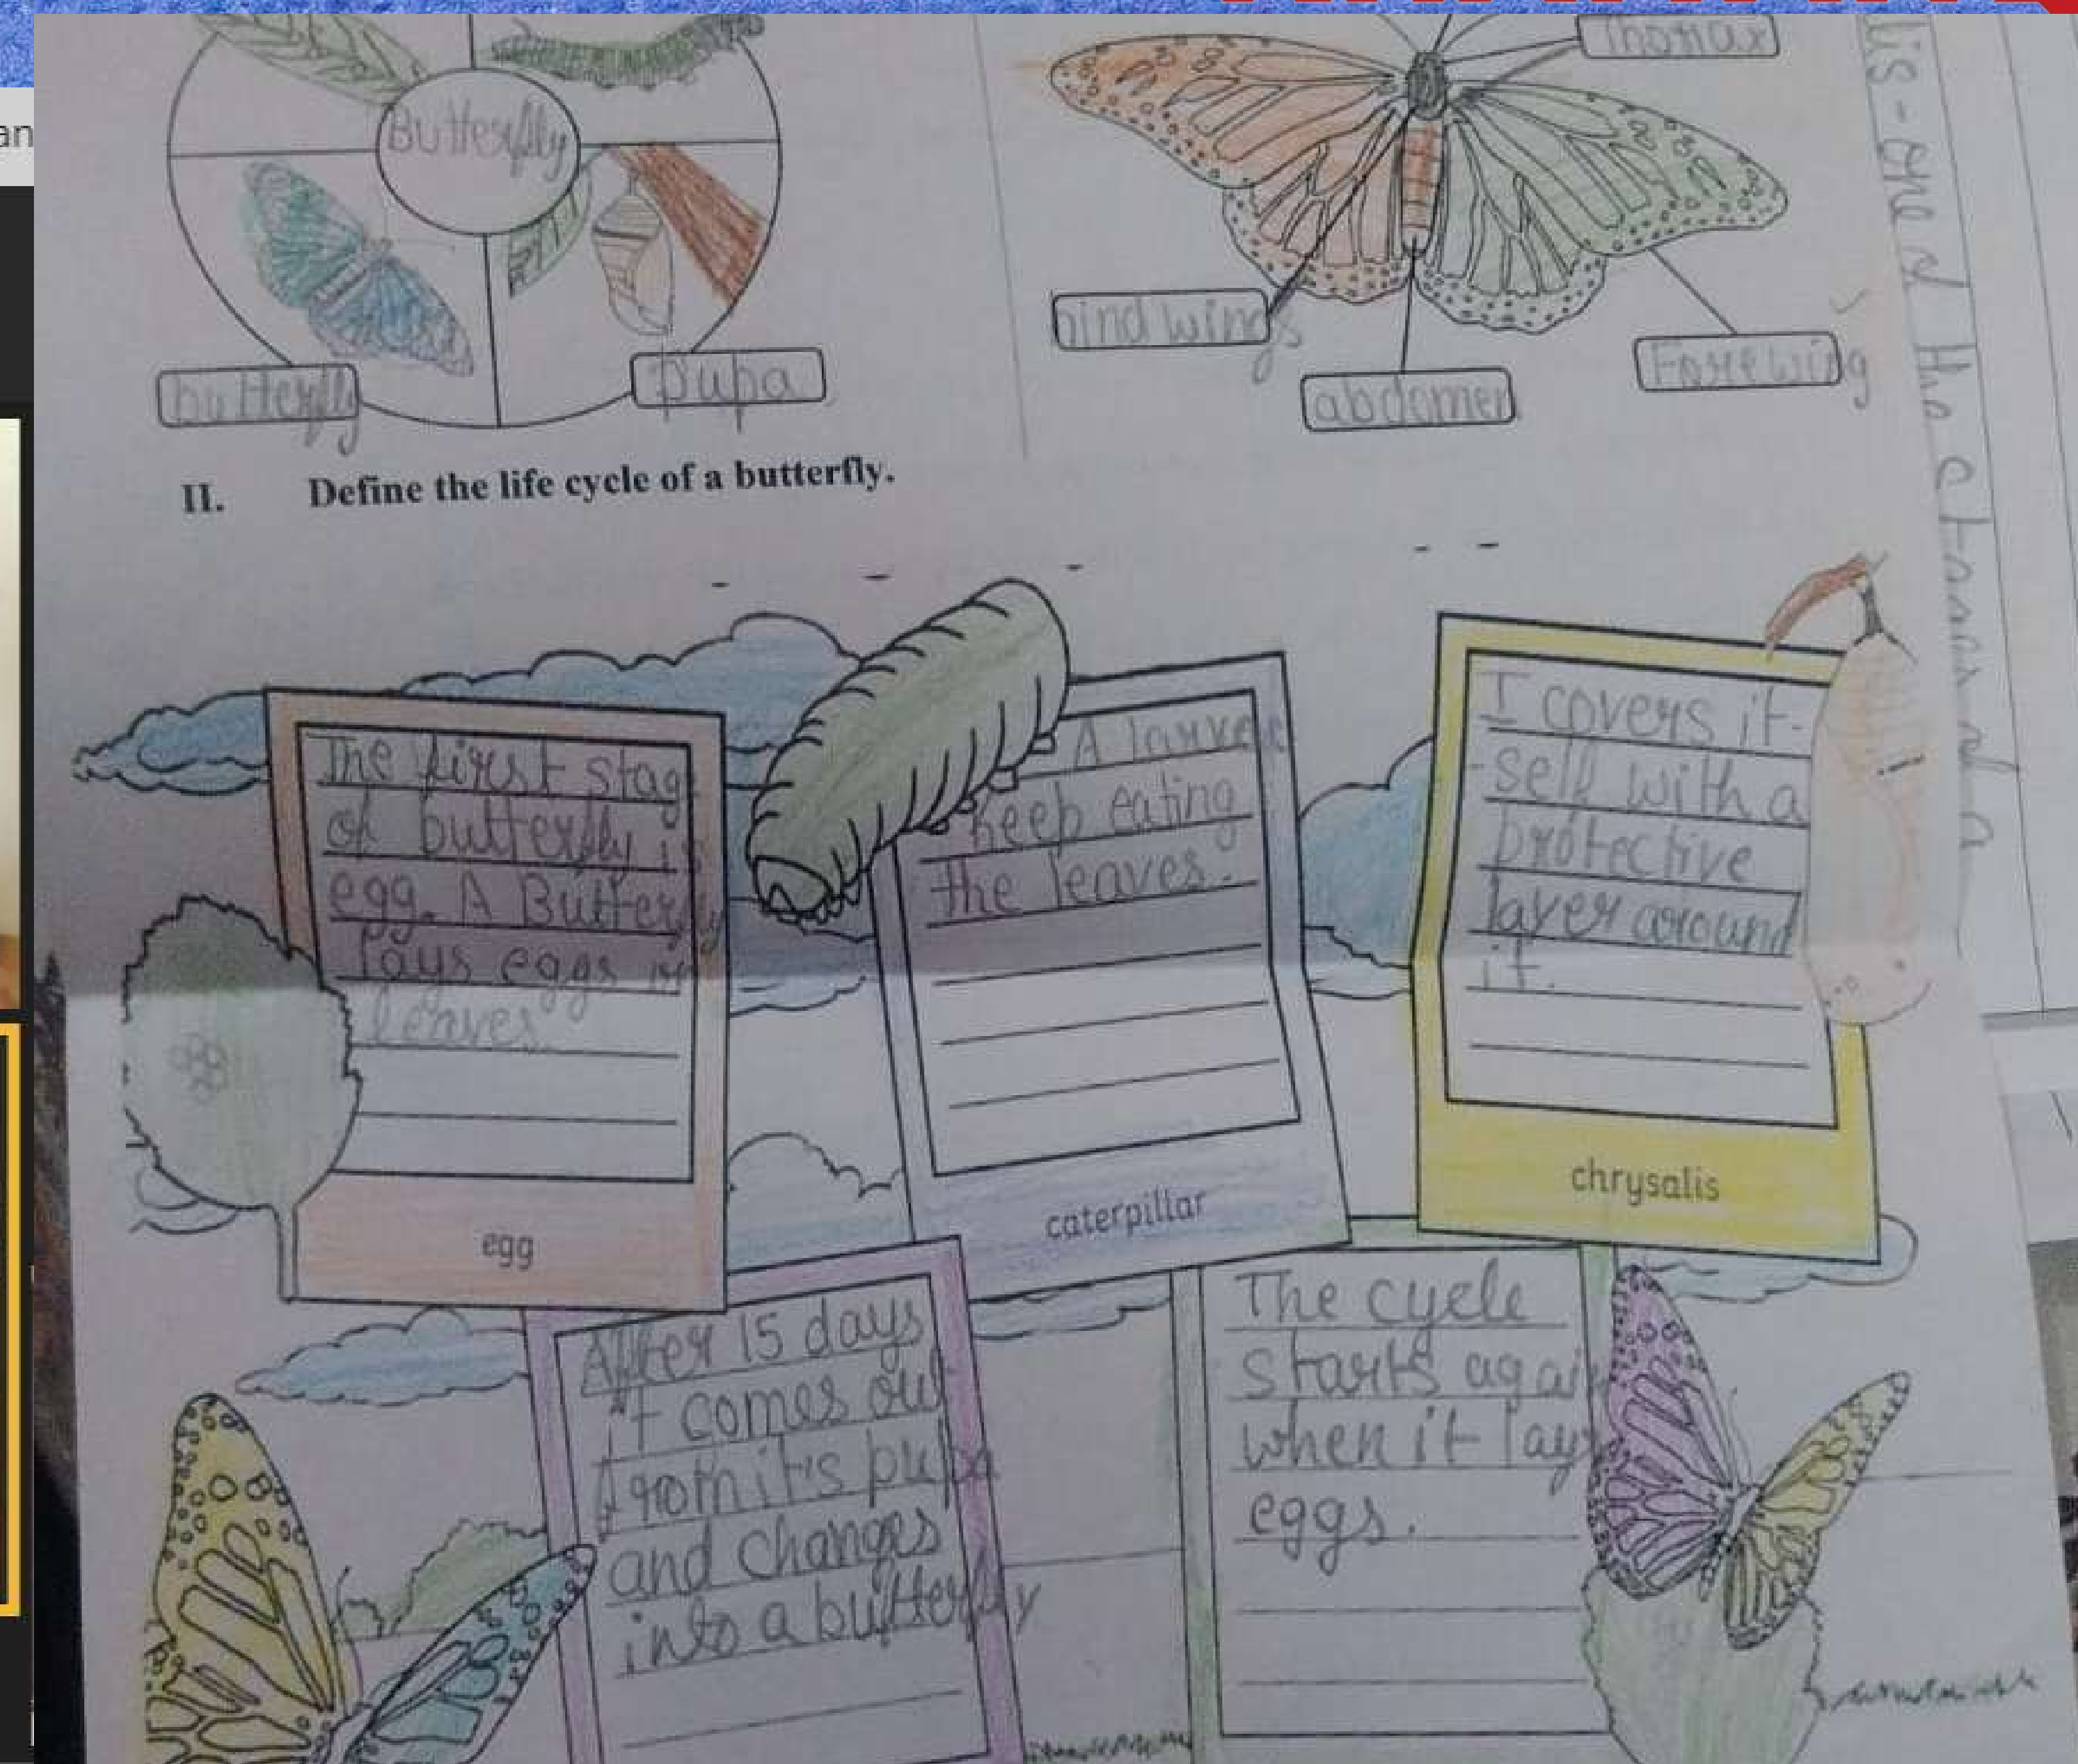

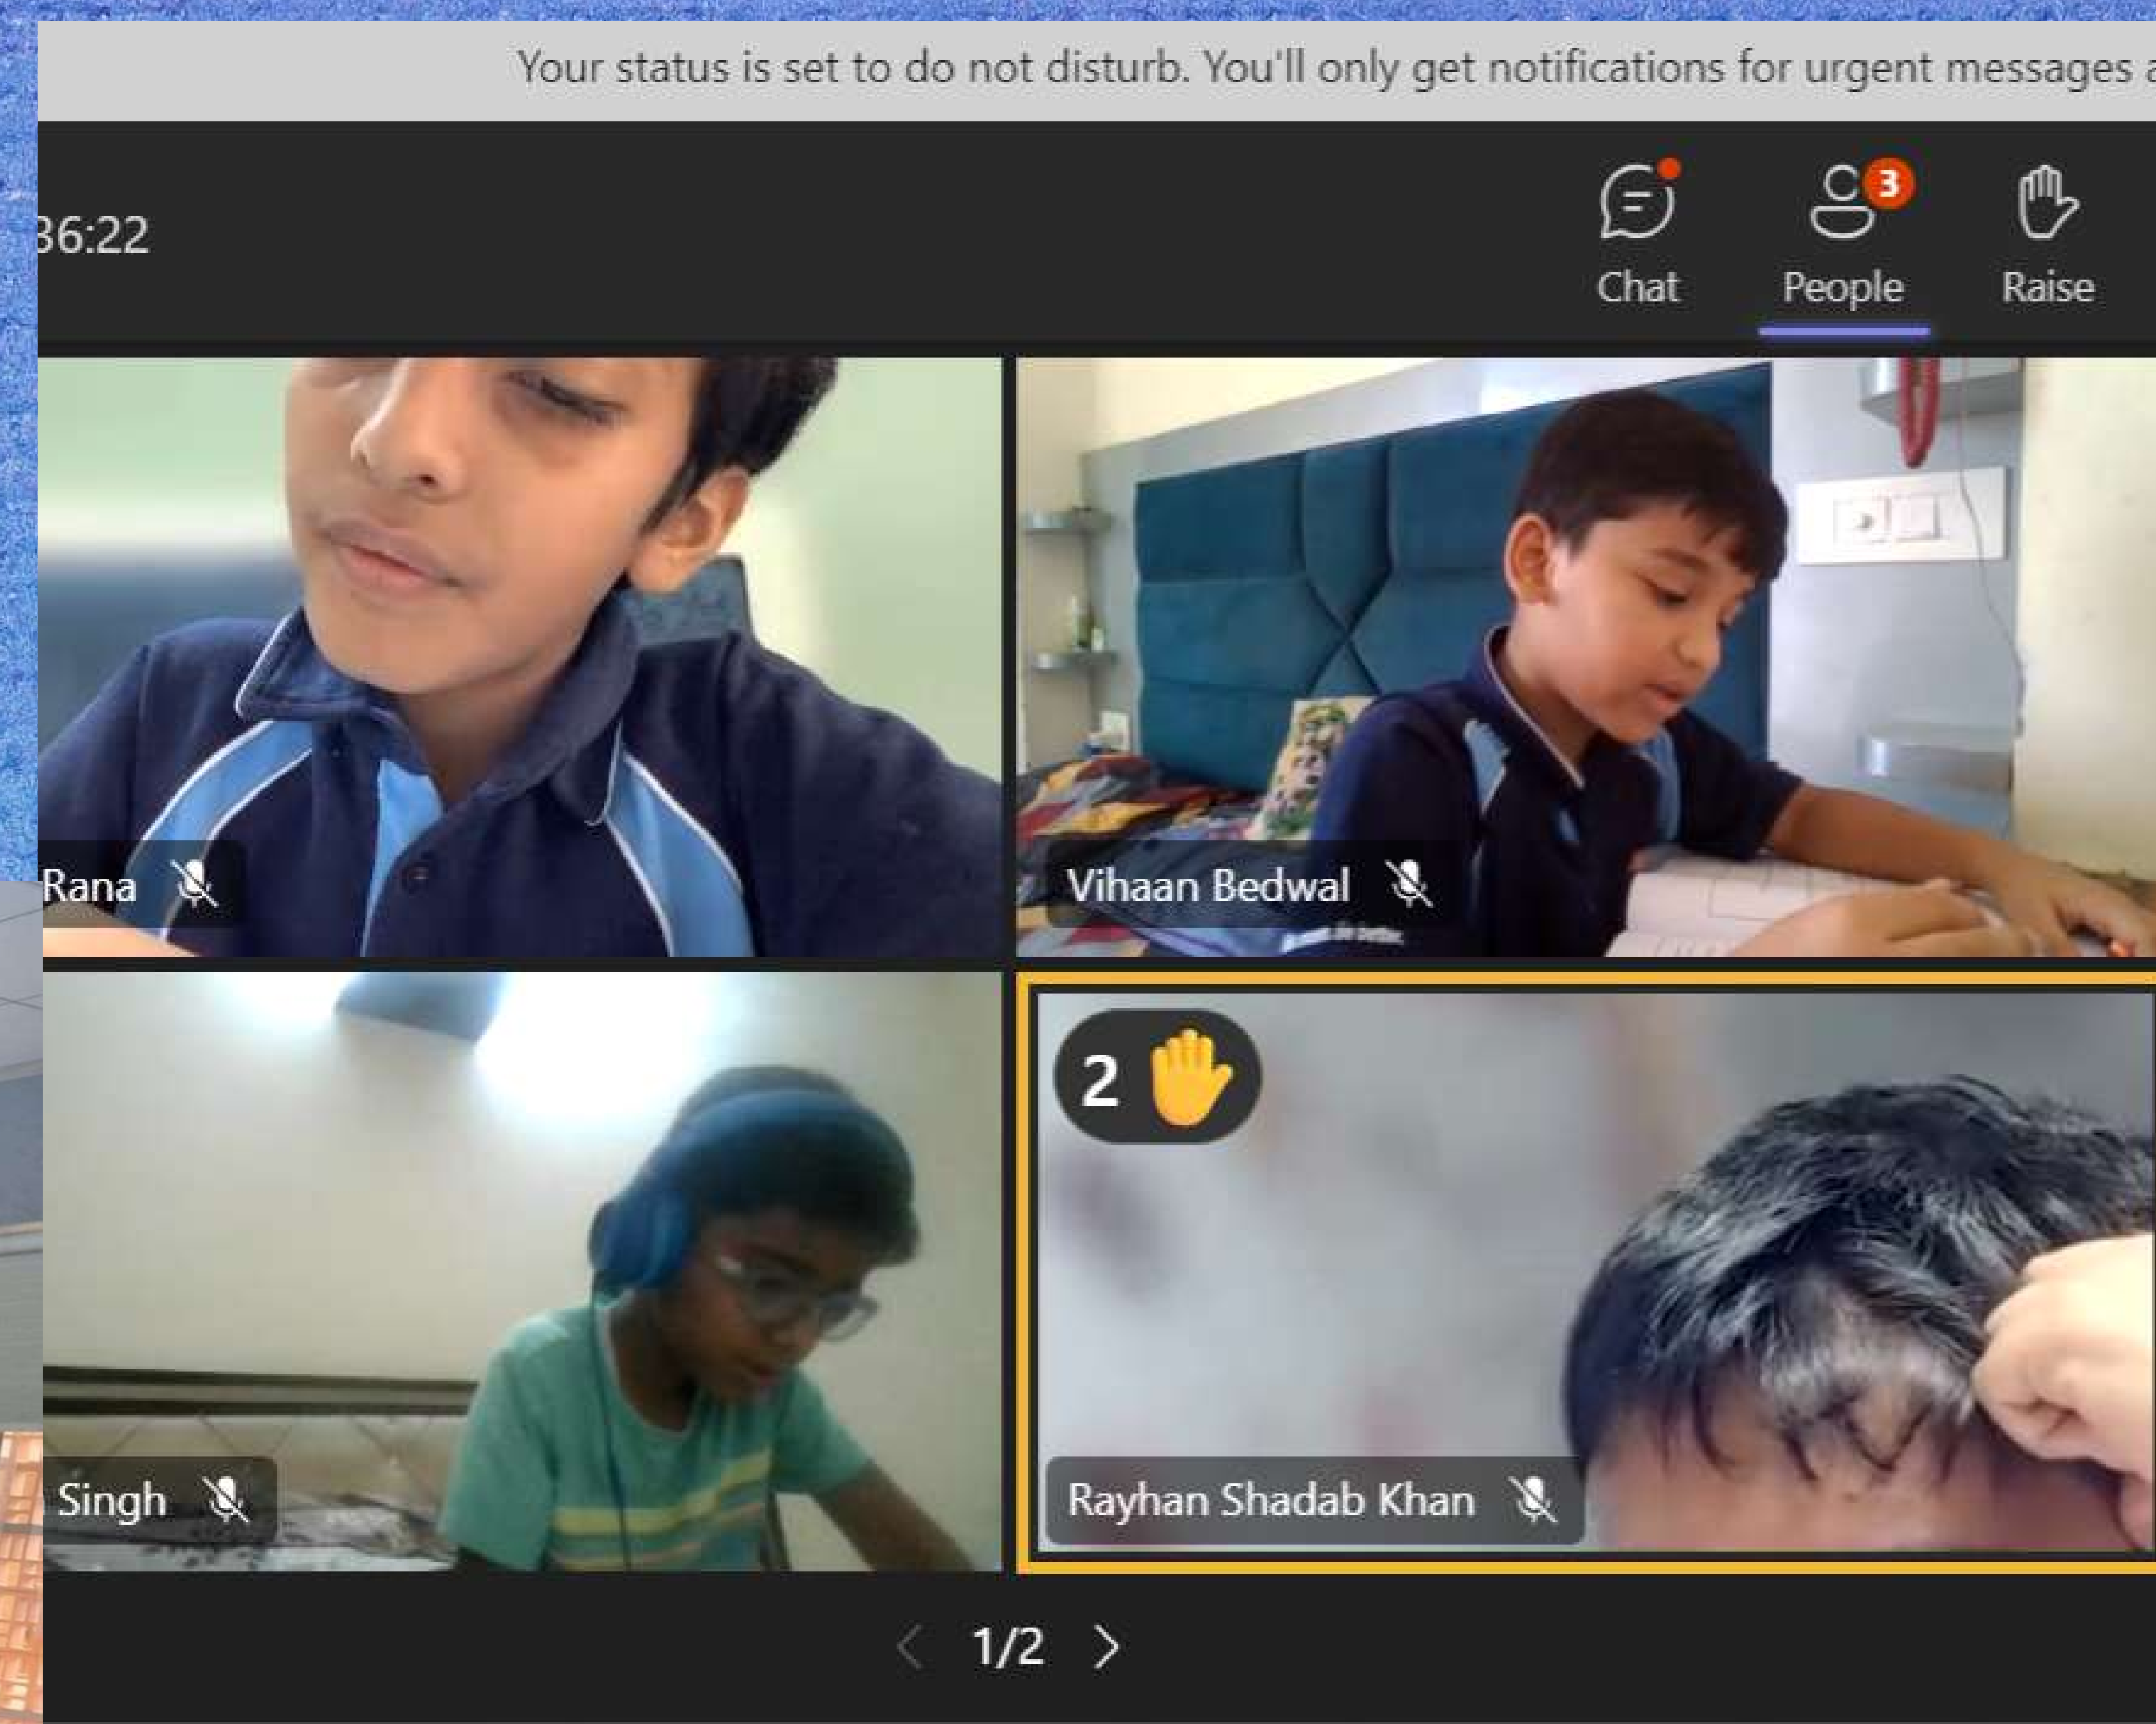

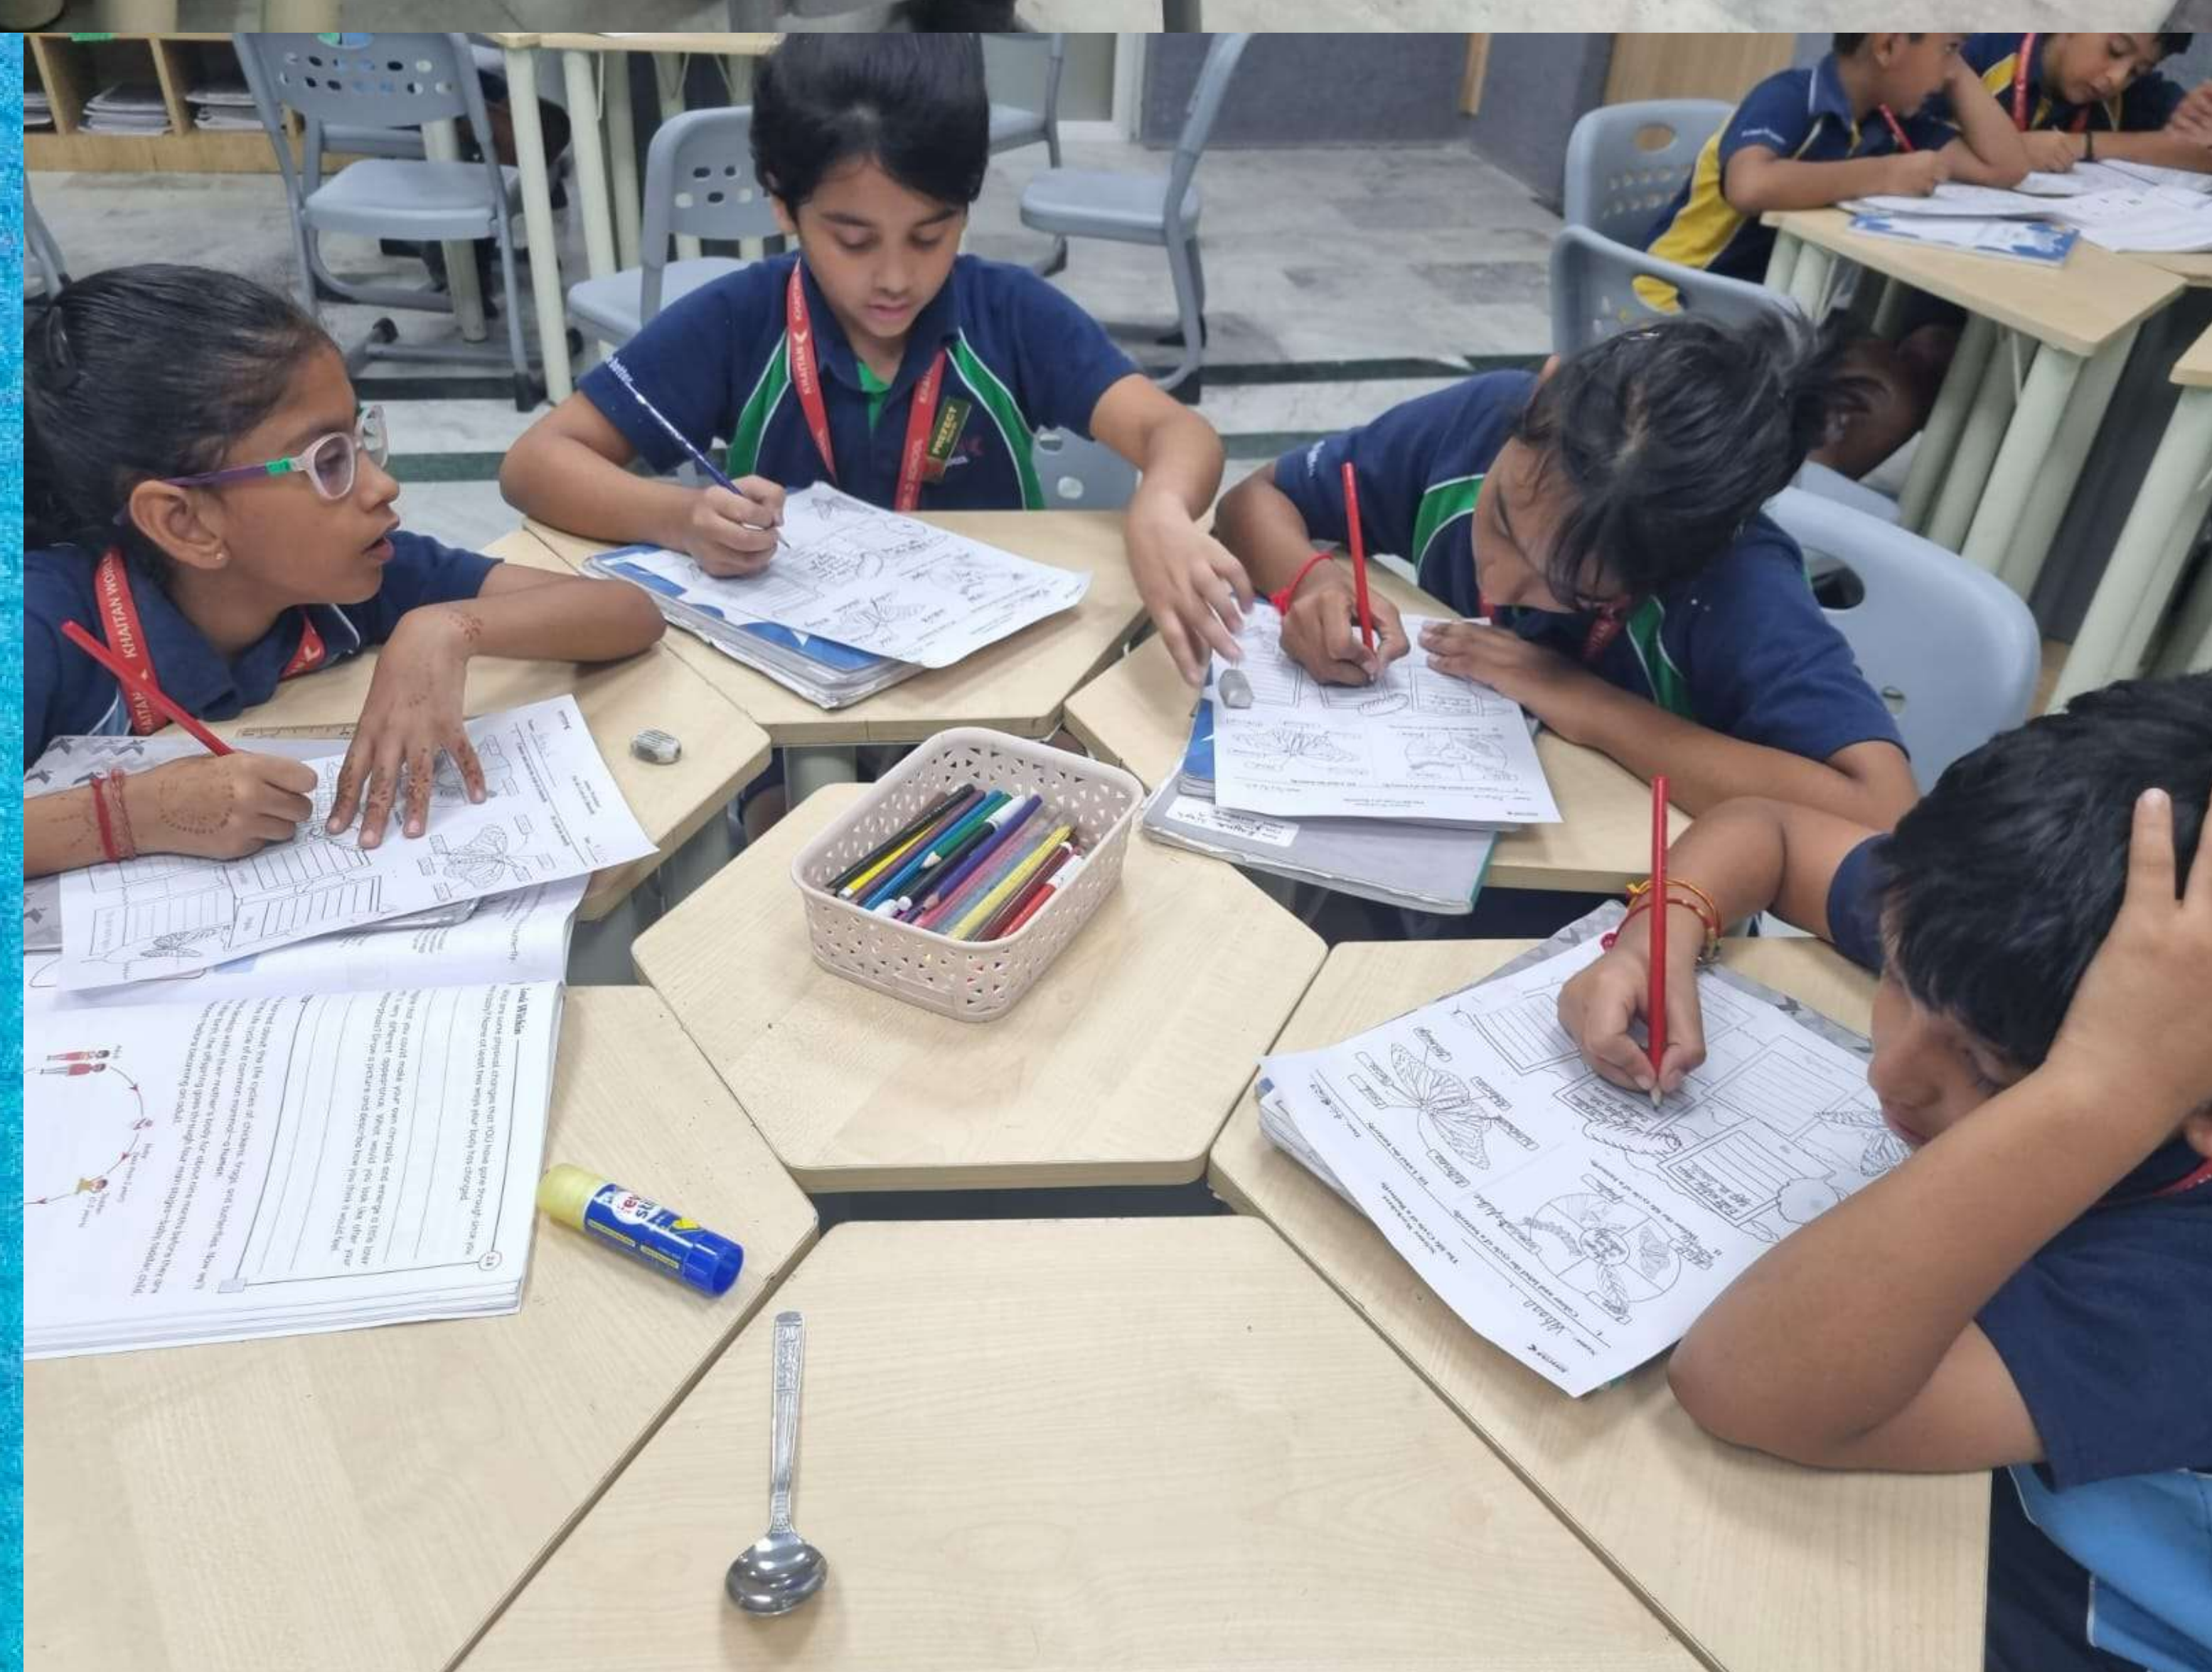

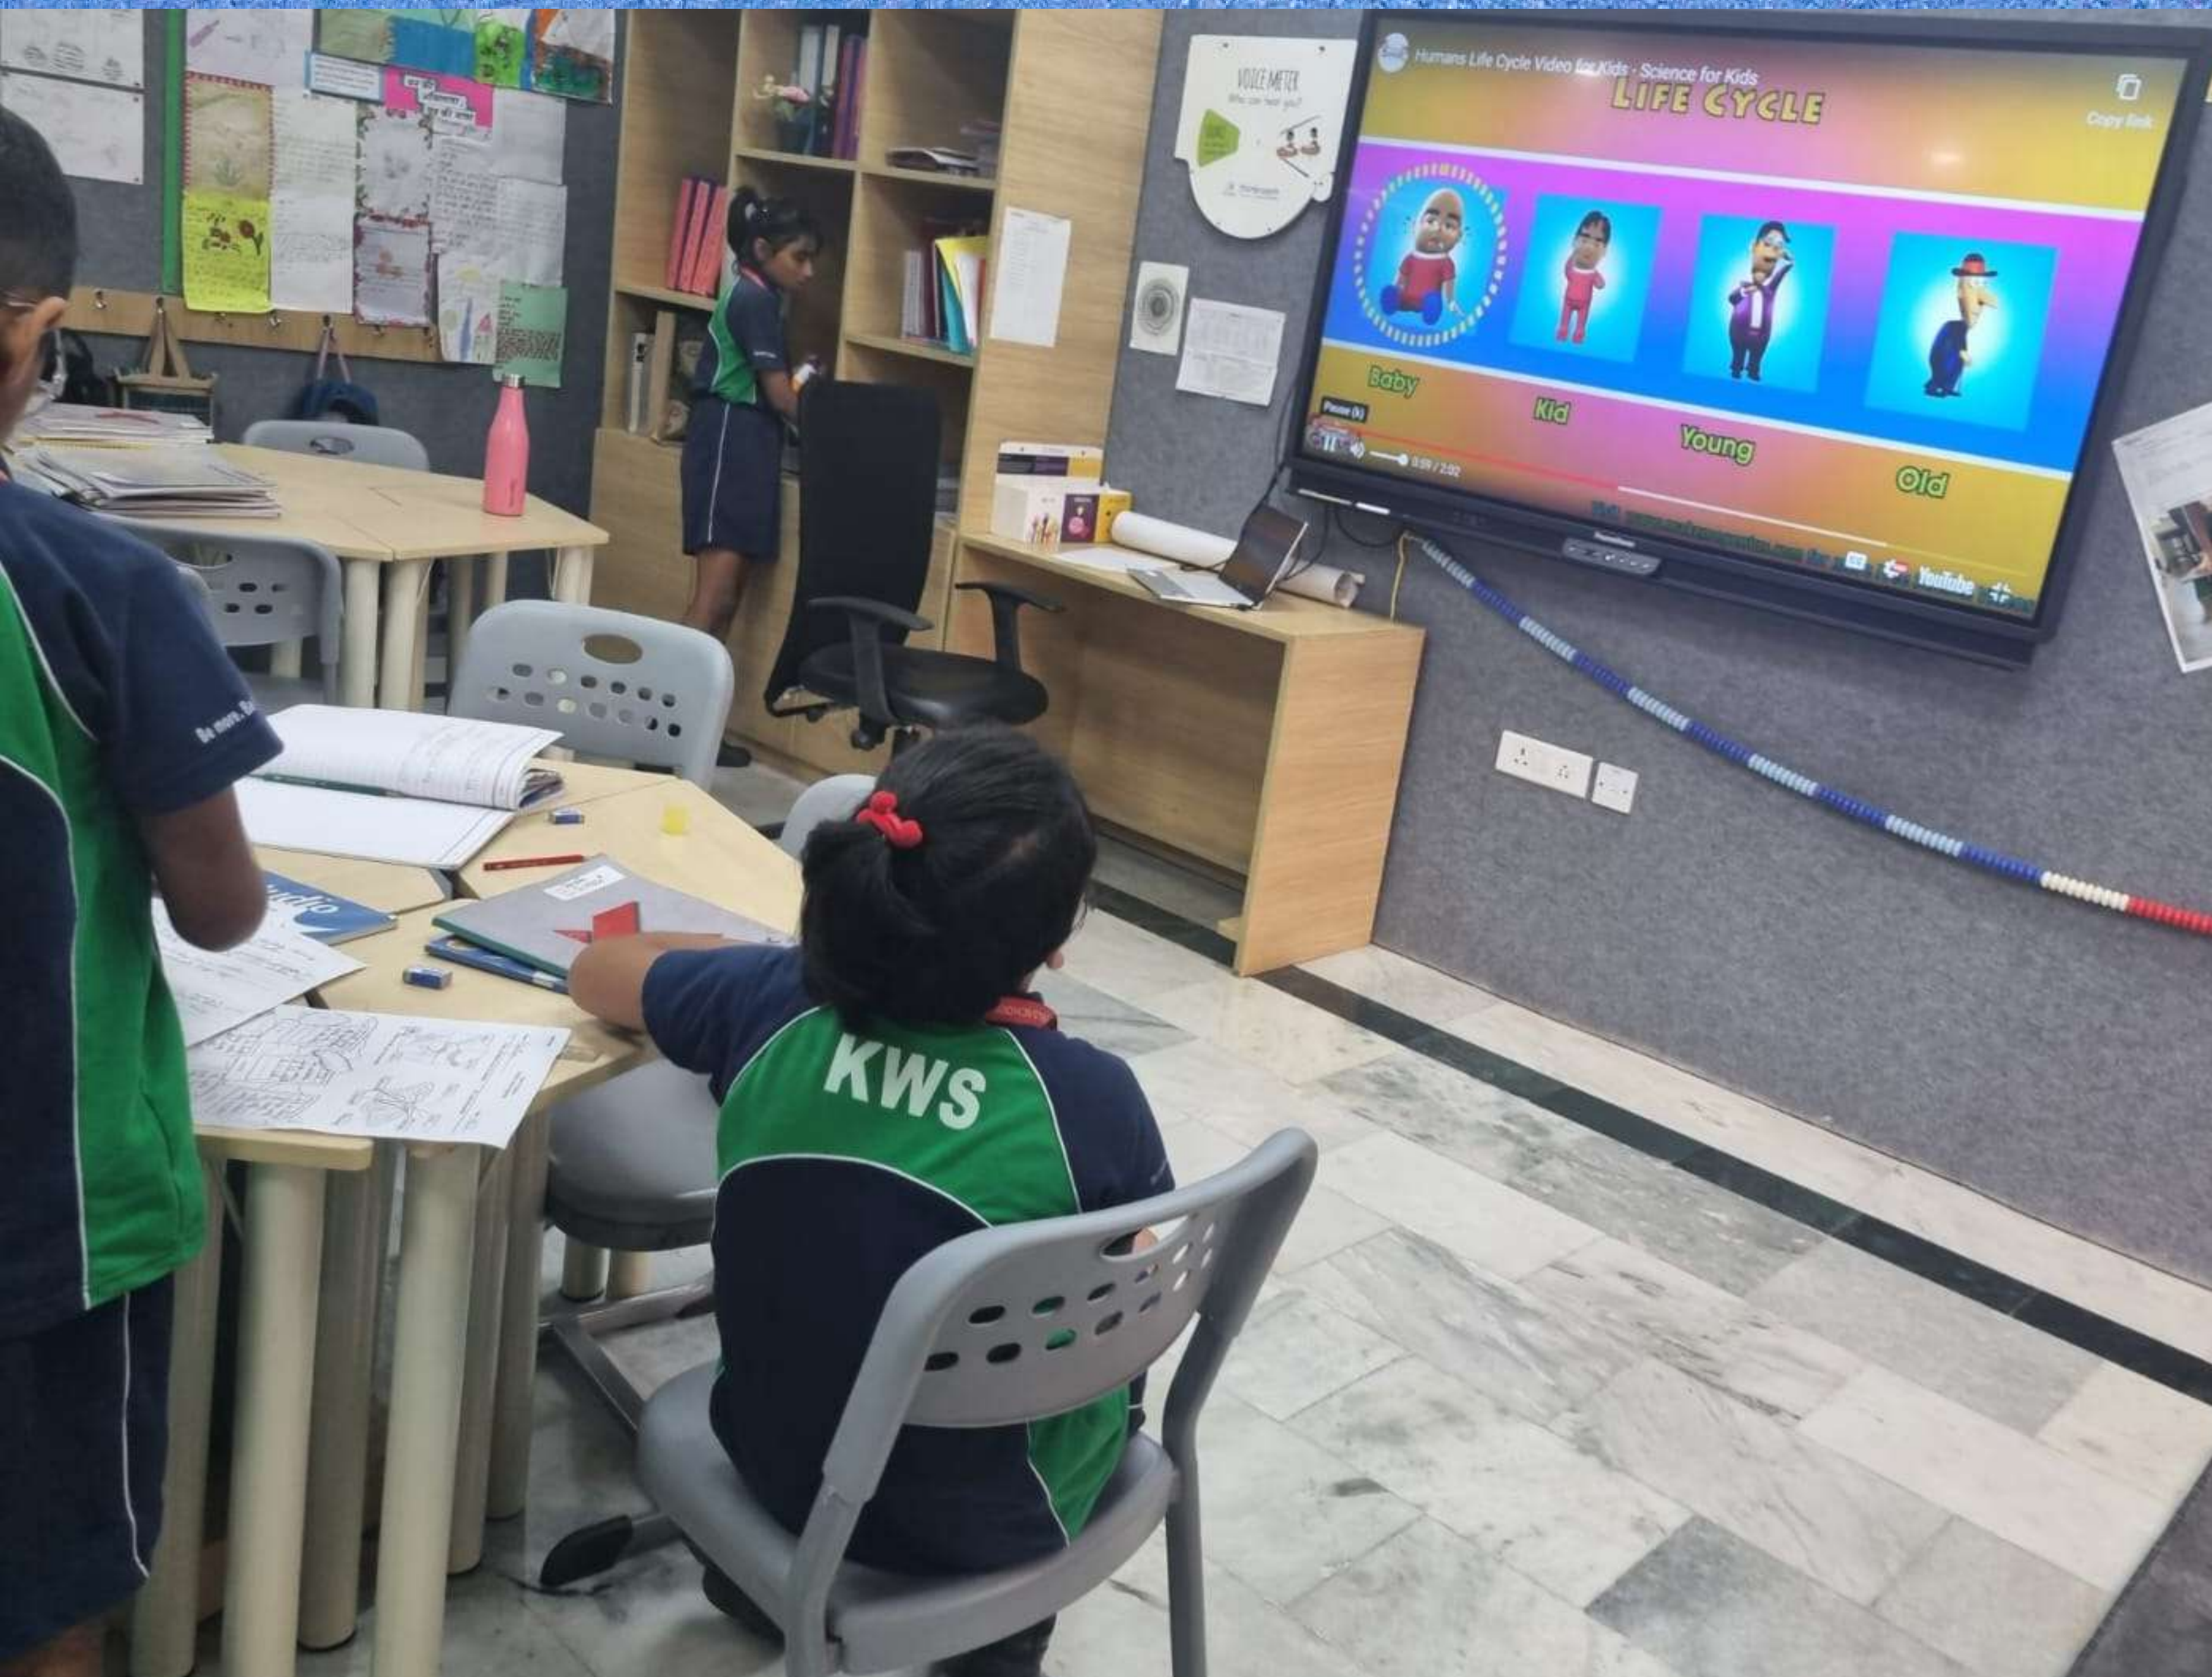

In our Numeracy lessons, we continued Calendar and understood the concept of finding duration between two dates. Also, we did practice exercise for better understanding of the concept. Additionally we started new concept 'The way the world looks' where we did visualisation of different objects.

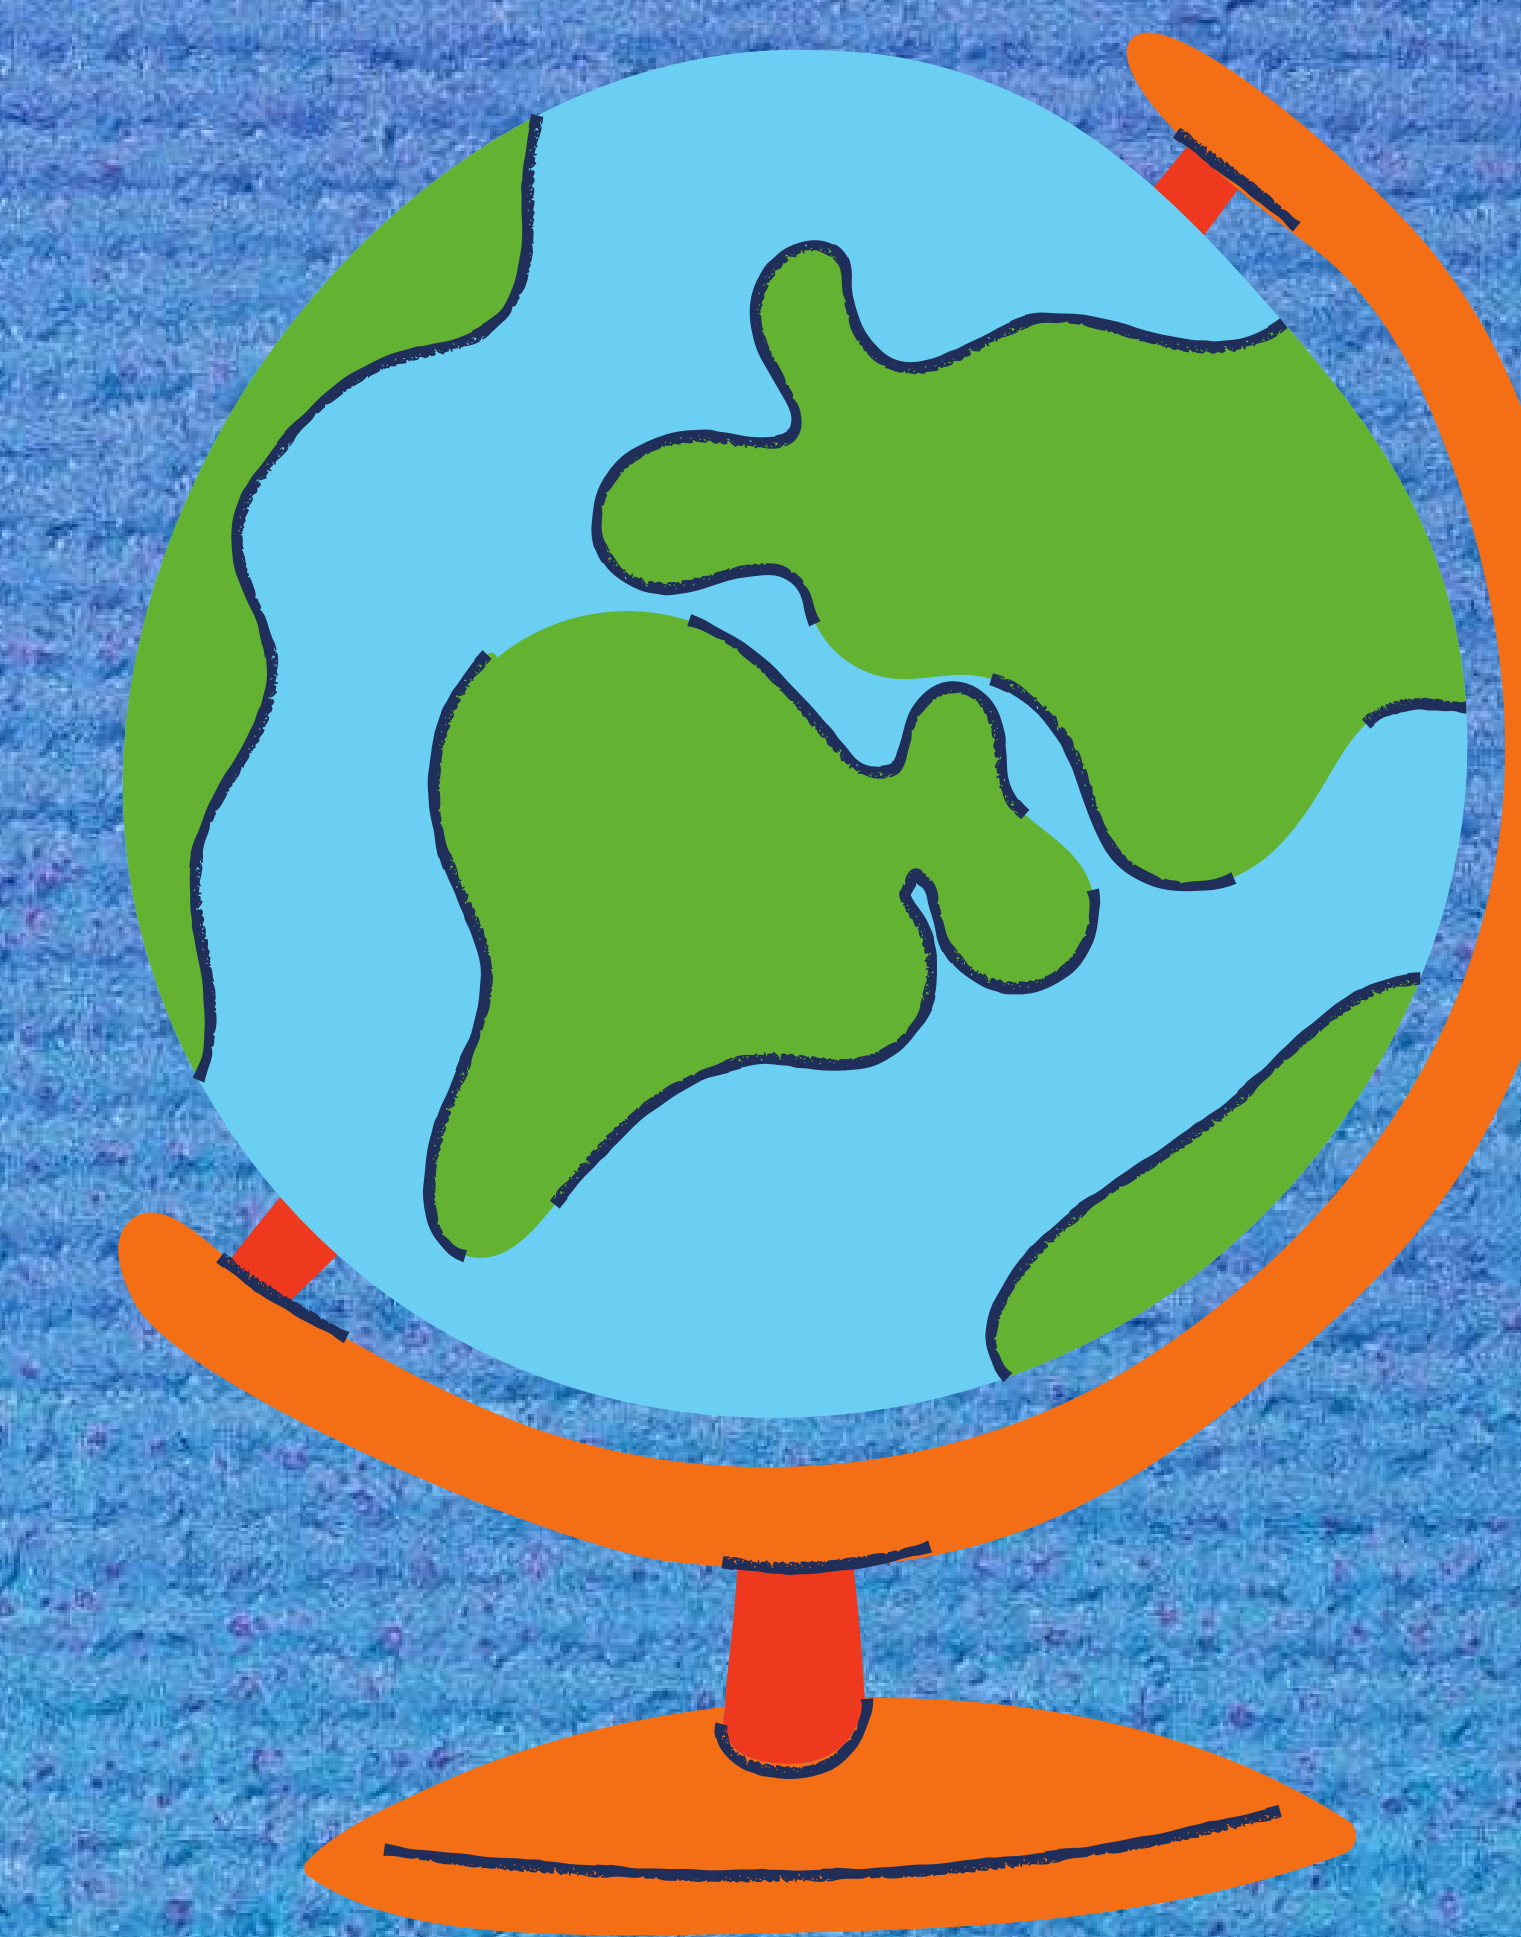

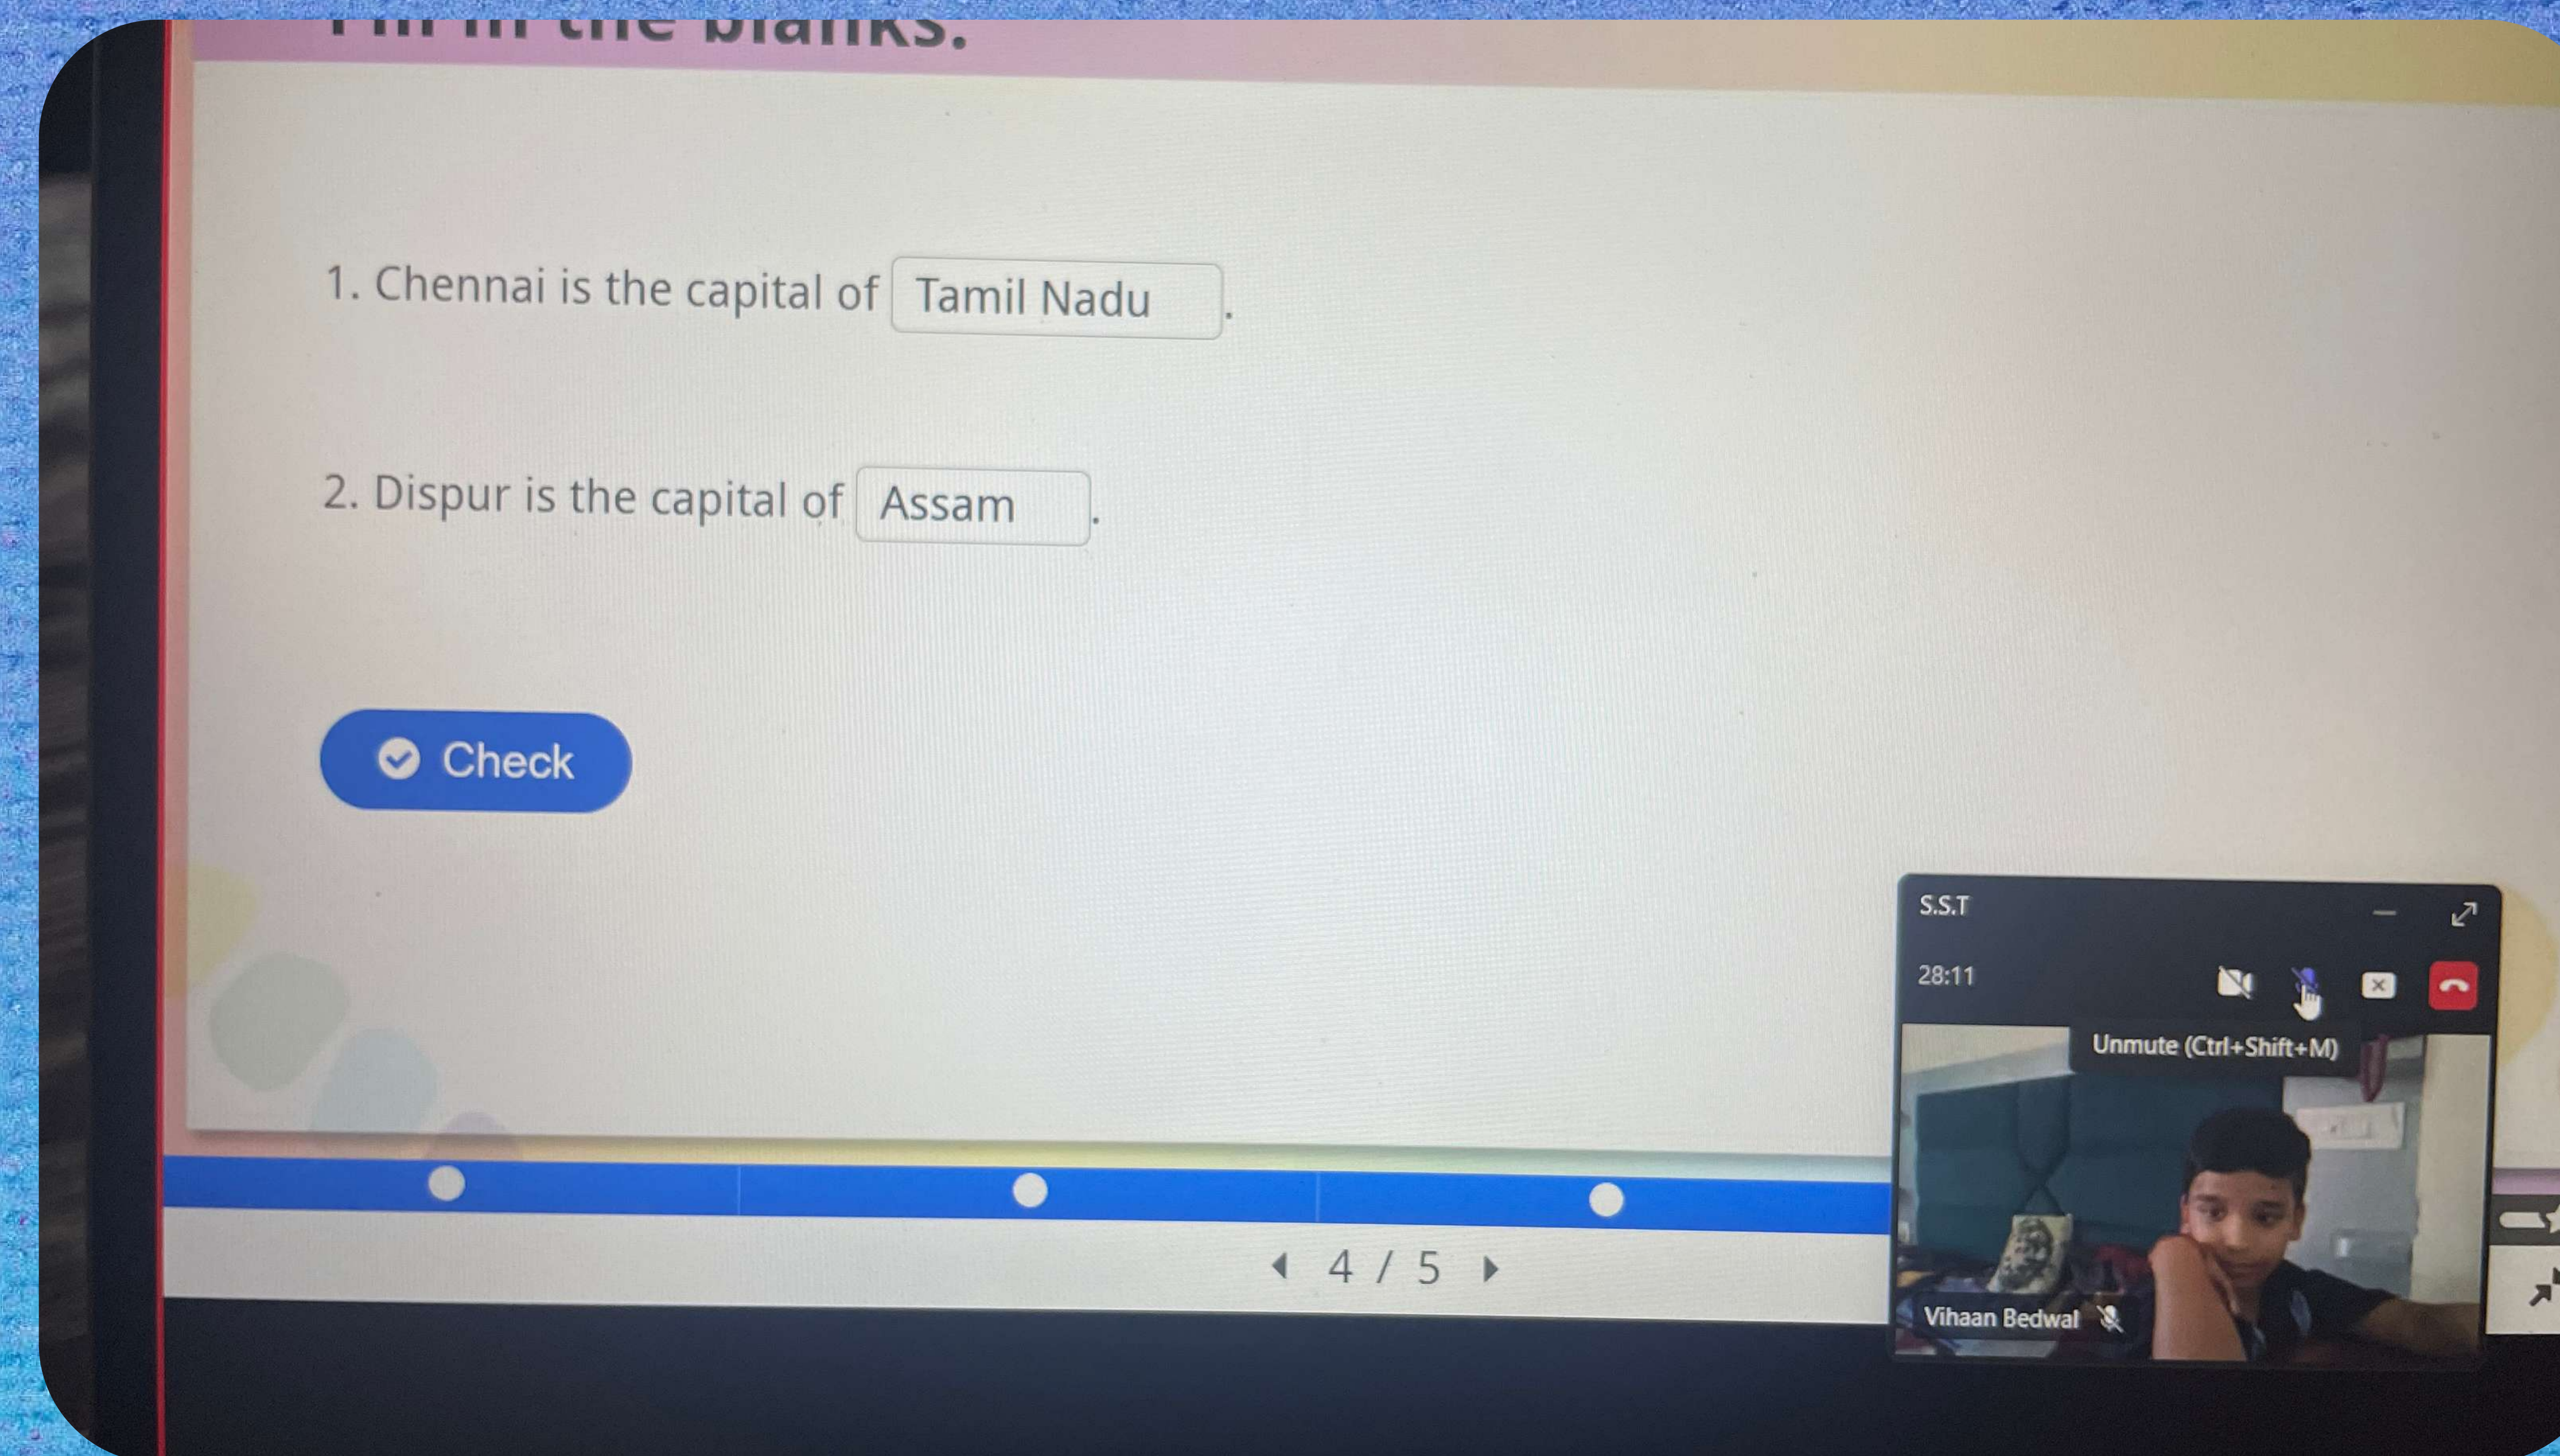

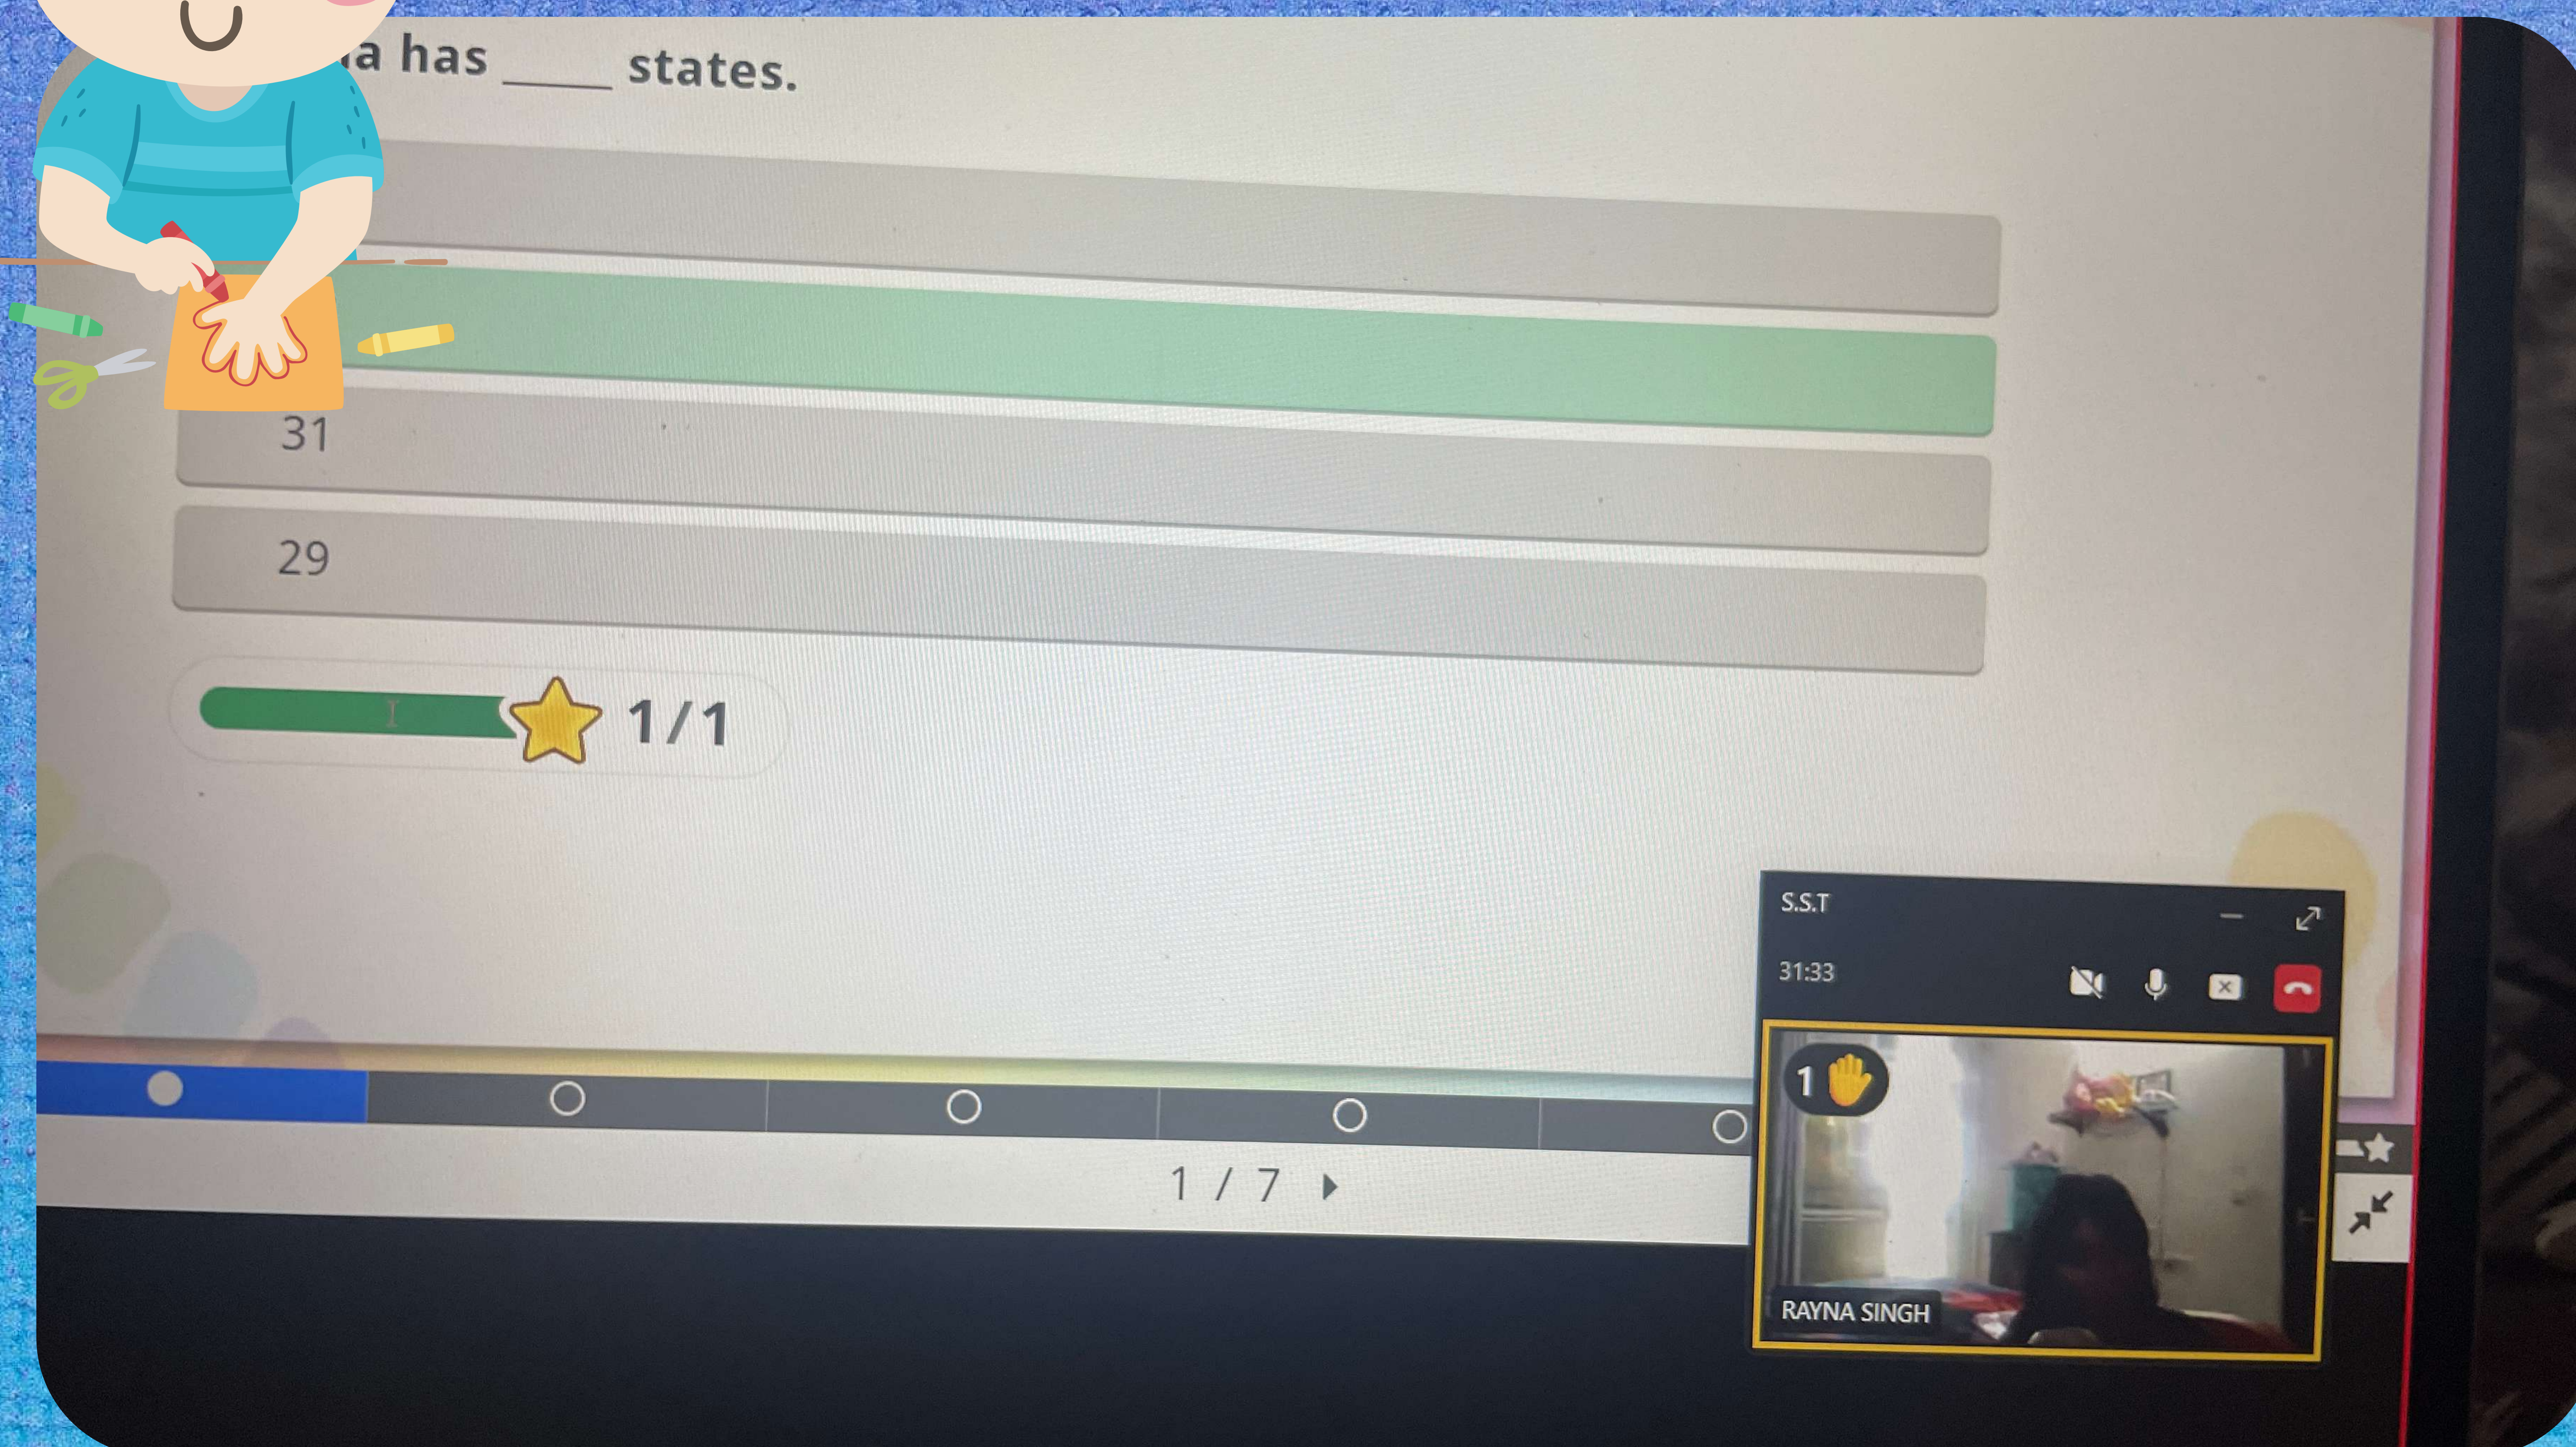

SCIENCE

In this learning cycle, we explored life cycles of a butterfly and a human being. We have learnt that no living thing on this land can skip one of its stage from it's life cycle. We were totally spell bound when we were asked if we could make our own chrysalis and emerge a little later with a different appearance, what would we look like after metamorphosis?

SOCIAL SCIENCE

In our Social Science lessons, we did a recapitulation of the topic 'Many states, One country' through online quiz.

PHYSICAL EDUCATION

This week in PE classes, we were introduced to barrier fielding techniques, where we improved our front-foot defense, and gained a better understanding of essential Cricket match scenarios. These foundational skills not only enhance our cricket prowess but also foster agility, teamwork, and a heightened appreciation for the sport.

PERFORMING ARTS (MUSIC)

In our music class, we practiced the song 'thank you teachers' and performed it on Teachers Day celebration.

VISUAL ART

In a recent visual art lesson, Grade 4 students delved into the art of crafting heartfelt Teachers' Day cards. They embraced a journey of creativity and learning by exploring new visual vocabulary through paper folding techniques, composition design, and a vibrant color palette. Each card became a unique masterpiece, symbolizing the deep appreciation they hold for their teachers. These young artists not only honed their artistic skills but also expressed gratitude in a meaningful way.
